

9 Tips for Working Remotely

SPACE

Designate a space for work & work only. Minimize interruptions from family & roommates there.

DOOR

Close the door to your workspace. This reminds others you are busy while minimizing noise.

HEADSET

Use headsets, not speakerphones. Most speakerphones have technical limitations.

PAUSE

On conference calls, pause often. You cannot see body language & this allows more feedback.

VIDEO

Use video as much as possible. A major portion of our communication is non-verbal.

EYE CONTACT

On video calls, look into the camera, not at the other person. Participants perceive this as making eye contact.

ONLINE

Use online tools to access your work from any computer, whether at home or the office.

BACK UP

Remember to connect to your office network or manually make backup copies of work.

FOCUS

The human brain does not multitask. When working, focus on work. When with your family, be fully with them.
