work for a company or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits Interested to know more Then Scroll up Click on Buy now with 1 Click and Get Your Copy Now *Digital Nomad* Dave Brett, 2015-11-01 About Digital Nomad Are you looking at creating an online business that allows you to live in a location independent lifestyle and travel the world Not sure where to start By following the steps laid out in Digital Nomad anyone can easily create a lifestyle focused towards setting up a business making money online whilst travelling the world This book will help you Kick start your Business Discover Work available online How to Work from the road Set your Goals Build an audience The Art of Adapting to the World Learn how to invest your first 100 investment Research your market Finding a Place to Stay Organize your productivity Also explains Creative Generation Concept of a Nomad What a Digital Nomad is Ways to earn money online SEO Keywords Automation Passive income Creating Schedule s Analytics Importance of Email List s Special sections surrounding Creating content to engage an audience Chiang Mai Thailand starter guide Basic Gear guide For Digital Nomads Setting up a Bank Account Setting up a Mobile Phone Abroad Pomodoro Technique Bullet Journal Round the World Flight RTW Issues addressed in this book Morning rituals Killing Procrastination How to make friends on the road and create a global social circle Visa restrictions Tax for digital Nomads How Traditional Employment is Shifting How to manage Customer service remotely Time to Establish Yourself A personal note from the author I wrote Digital Nomad to help others look at setting up an online business make money online and to travel the world and live a location independent lifestyle full time I was once in your shoes and understand it can be a worrying endeavor from the start I m here to tell you that it s possible with the information outlined in Digital Nomad it contains everything needed to understand the basics of working online and travelling the world I wrote a personal opening chapter about my first
