How to Speak Whale

Tom Mustill, 2022-09-06

What if animals and humans could speak to one another Tom Mustill the nature documentarian who went viral when a thirty ton humpback whale breached onto his kayak asks this question in his thrilling investigation into whale science and animal communication

A New Yorker Best Book of 2022

When a whale is in the water it is like an iceberg you only see a fraction of it and have no conception of its size

On September 12 2015 Tom Mustill was paddling in a two person kayak with a friend just off the coast of California

It was cold but idyllic until a humpback whale breached landing on top of them releasing the energy equivalent of forty hand grenades

He was certain he was about to die but they both survived miraculously unscathed

In the interviews that followed the incident Mustill was left with one question What could this astonishing encounter teach us

Drawing from his experience as a naturalist and wildlife filmmaker Mustill started
