Barker, Al-Sakib Khan

Pathan, 2024-07-12 Having been catapulted into public discourse in the last few years this book serves as an in depth exploration of the ever evolving domain of artificial intelligence AI large language models and ChatGPT It provides a meticulous and thorough analysis of AI ChatGPT technology and their prospective trajectories given the current trend in addition to tracing the significant advancements that have materialized over time Key Features Discusses the fundamentals of AI for general readers Introduces readers to the ChatGPT chatbot and how it works Covers natural language processing NLP the foundational building block of ChatGPT Introduces readers to the deep learning transformer architecture Covers the fundamentals of ChatGPT training for practitioners Illustrated and organized in an accessible manner this textbook contains particular appeal to students and course convenors at the undergraduate and graduate level as well as a reference source for general readers **Market-Oriented Disinformation Research** Carlos Diaz Ruiz, 2025-03-25 Market Oriented

Disinformation Research explores the spread of false or misleading information online through the lens of marketing theory and consumer research It examines how the business models of digital platforms and advertising technology firms AdTech generate digital markets that incentivize the circulation of harmful content for profit Rather than viewing disinformation and misinformation as accidental byproducts the book proposes that they thrive in the current markets designed for digital advertising and influencer marketing Readers will learn how the amplification of disinformation can be linked to social media s business model Examples include how social media algorithms promote addictive content how fake news sites use ad fraud

to lure in advertising revenue and how some content creators rely on clickbait ragebait bots and conspiracy theories to boost their engagement metrics The book is a must read for scholars in journalism media studies and political communication as well as policymakers interested in the democratic governance of social media platforms In addition it calls for digital marketing advertising and brand management professionals to take responsibility for their ad spending by advocating for greater oversight over AdTech intermediaries to prevent unethical actors from monetizing the harmful content that polarizes society and undermines democratic institutions
