This provocative book approaches education reform by highlighting what works while also demonstrating what can be accomplished if we redefine conventional schools. We can make the schools we have more efficient, more effective, and more equitable all while creating powerful opportunities to support all aspects of students' development. You won't find a better book on system change in education than this one. We learn why schools don't change, how they can improve, what it takes to change a system, and in the final analysis, the possibilities of system change. Above all, *The Education We Need* renders complexity into clarity as the writing is so clear and compelling. A powerful read on a topic of utmost importance. Michael Fullan, Professor Emeritus, OISE, University of Toronto. I cannot recommend this book highly enough. Tom tackles long-standing and emerging educational issues in new ways with an impressive understanding of the challenging complexities but also feasible possibilities for ensuring excellence and equity for all students. Carol Campbell, Associate Professor, Ontario Institute for Studies in Education, University of Toronto.
