2030,2011 Our Orwell, Right Or Left C. J. Fusco,2008 Writers TM words have always been used by pundits and politicians in order to further their own agendas but it is probable that no writer TM s work has been used and misused as frequently and as effectively as George Orwell TM s Once the champion of Europe TM s down and out and a self proclaimed advocate of Socialism Orwell was understandably embraced by many on the Left during his own lifetime Following the publications of Animal Farm and Nineteen Eighty Four and the writer TM s own death shortly thereafter Orwell also became a patron saint of sorts for many on the Right Within the arenas of political theory and literary criticism this confusing and seemingly contradictory turn of events has resulted in an ongoing battle over the writer TM s legacy Our Orwell Right or Left examines Orwell TM s reception history in order to decode why critics on both ends of the political spectrum have been compelled to claim Orwell as one of their own and how they have gone about doing so In many cases when Orwell TM s writing has been misused by those in politics it has alarmingly reflected the same species of dangerous propaganda that Orwell had warned about in his final two books As there is an inherent problem with a situation in which critics have misrepresented the scope and focus of Orwell TM s writing whether the misrepresentation happens to be intentional or not Our Orwell Right or Left takes a close look at the details of Orwell TM s own writing and juxtaposes what George Orwell had written with the often dubious claims of his proponents Manipulative political propaganda however is but one of the many very dangerous symptoms of repression and tyranny that Orwell had warned against in his writing As Our Orwell Right or Left shows there are many aspects of our contemporary culture that are worryingly similar to the Oceania of Orwell TM s Nineteen Eighty Four That Orwell TM s writing still remains prescient even approaching sixty years following his death proves that he is not only a writer still worthy of being read but that he is also a writer still worth fighting over *Adweek* ,2007 Vols for 1981 include four special directory issues C++ how to Program Paul J. Deitel,2008 Introduces the fundamentals of object oriented programming and generic programming in C Topics include classes objects and encapsulation inheritance and polymorphism and object oriented design with the UML **Social Media Marketing: The Importance of Web 2.0 and its Influence on the US Presidential Elections 2012** Carina Förg,2013-05-15 Seminar paper from the year 2013 in the subject Communications Multimedia Internet New Technologies grade 1 3 Institut für Interpreter und Sprachen München course Zeitgeschehen Englisch language English abstract In the last years social media platforms have experienced a boom that is hard to compare with anything similar before There is hardly anybody that does not have his own Facebook account and probably everybody has watched at least one video on YouTube in his life Those few people without Facebook are being watched skeptically usually accompanied by the question how can you live without it without feeling excluded This shows how important social media has become in our everyday lives and that we no longer can imagine living without being connected 24 7 The following paper will first give a general insight into the development of social media and social media platforms with a focus on Twitter and Facebook and then show their importance and influence

on the presidential elections in the United States of America in 2012 At the end there will be a short forecast about how social media will probably develop within the next years **The First Black President** Johnny Bernard Hill,2009-10-15 The First Black President is a critical and passionate reflection on the political and historical implications of an Obama administration concerning the issue of race in America Obama s rise to political power has forever changed the contours of race relations in the country as many hail the new age of a post racial society Yet an Obama presidency could further complicate real racial progress and could set race relations back in the country for decades to come if not viewed in the proper context The book demonstrates that the Obama presidency must be celebrated as a historical triumph based on America s racist past but also the struggle for equality justice and freedom must also intensify with recognition of its global consequences The problem of race in America no longer just affects American citizens but impacts cultures around the globe The book speaks to both optimists and pessimists alike who are struggling to understand how race factors into the domestic and international policy agenda of Obama who now sits in the highest seat of political and global power **Business Week** ,2009 The Economist ,2009
