entrepreneurs However the step in the development chain where the idea is generated has received comparably low attention This paper thus tries to explore some sources and mechanisms evolved through globalization and use of the Internet Third a case study designed to explore the above mentioned new framework and implications is expected to support the development of a new model It is therefore the overall purpose of this paper to produce a theoretically grounded and practically applicable model A model that should cover the most important aspects when copying and implementing a business concept from a different country Complicit Reah Bravo,2024-06-18 A brave book that imbues MeToo era discourse with a fresh voice Kate Bolick New York Times bestselling author this is a thoroughly researched and deeply personal examination of how women unintentionally condone workplace abuse and what we can do to change things for the better When Reah Bravo began working at the Charlie Rose show the open secret of Rose s conduct towards women didn t deter her from pursuing a position she thought could launch her career in broadcast journalism She considered herself more than capable of handling any unprofessional behavior that might come her way But she soon learned a devastating truth we don t always react to abusive situations as we imagine we will When we live in a society where many feminist ideals are mainstream and women hold positions of power how is it possible that sexual misconduct remains prevalent When many employers mandate trainings to prevent harassment of all kinds why is workplace abuse still so rampant Weaving her own experience with those of other women and insights from experts Bravo reveals the psychological and cultural forces that make us all enablers of a sexist and dangerous status quo At a critical time in the ongoing fight for gender and racial justice Bravo has written an empathic and concise book that will inspire the next generation of voices courageous enough to rage against the machine Rebecca Carroll author of *Surviving the White Gaze* **Broadcasting & Cable** ,2008-03

The First Black President Johnny Bernard Hill, 2009-10-15 The First Black President is a critical and passionate reflection on the political and historical implications of an Obama administration concerning the issue of race in America Obama s rise to political power has forever changed the contours of race relations in the country as many hail the new age of a post racial society Yet an Obama presidency could further complicate real racial progress and could set race relations back in the country for decades to come if not viewed in the proper context The book demonstrates that the Obama presidency must be celebrated as a historical triumph based on

America's racist past but also the struggle for equality justice and freedom must also intensify with recognition of its global consequences. The problem of race in America no longer just affects American citizens but impacts cultures around the globe. The book speaks to both optimists and pessimists alike who are struggling to understand how race factors into the domestic and international policy agenda of Obama who now sits in the highest seat of political and global power.
