No Skills? No Problem! Sreekumar V T, 2025-07-28 No Skills No Problem Make Money with AI Even as a Beginner by Sreekumar V T is your essential guide to launching a profitable digital income stream even if you have zero technical expertise. In a world where artificial intelligence is revolutionizing how money is made, this book shows you exactly how to ride the wave without needing to code, design, or spend years learning complicated tools. Whether you're a retiree looking for a new income path, a student craving financial independence, or someone simply tired of the 9 to 5 grind, this book breaks down real, actionable strategies that anyone can follow. From setting up automated dropshipping stores and affiliate blogs to launching faceless YouTube and TikTok channels using AI avatars, voiceovers, and viral scripts, you'll discover how to build income streams that work for you around the clock. Packed with step-by-step insights, beginner-friendly methods, and practical advice on avoiding common pitfalls like copyright issues or AI over-reliance, this book doesn't just teach you what to do; it teaches you how to think smartly in an AI-powered world. You'll learn to scale your profits, manage your time, outsource tasks wisely, and stay ahead of trends with the latest tools and platforms. No Skills No Problem isn't just another book about side hustles; it's a blueprint for financial freedom in the age of automation, clear, honest, and written for real people who want real results. Let AI work for you, not the other way around. Your journey to earning with confidence starts here.

What is a Digital nomad

A digital nomad lifestyle is becoming more of the trend and this article will tell you what a digital nomad is and the realities of a Location Independent Business

What is a digital nomad and why are there so many people who want to work this way

A digital nomad is essentially a person who works for himself Many work at home mothers do this and are known as Full Time Gigs Others work as freelancers and do things a specific way like transcribing editing proofreading or programming However some digital nomads work for service companies and do things like web design web programming accounting creative writing or translation Those who work a digital nomad lifestyle do not work for a company or boss but instead work for themselves They set their own hours and follow their own rules It is difficult to be self employed in this society because you have to rely on the wills of others and your courage to set up your business However it is not impossible and there are different ways to be self employed which can provide you with more freedom and flexibility while still bringing in some money If you want to work at home then this is the technology which is enabling the change and it is allowing nomads to work from home Companies are recognising the potential of this new method of working and the first areas to embrace the new way of working are the legal ones However it is not just the legal firms and public sector which are looking to employment technology in order to cut costs Almost every type of industry is looking at using technology in order to lower costs and in this way increase profits For example restaurants are using recruitment technology in order to lower salaries and costs Until a few years ago when every restaurant had a fixed cost of hiring training and maintenance the vast majority of restaurants were able to pay 100% of their employees salaries This meant that it was possible to pay a manager less than a waiter and save money However with the inclusion of recruitment technology the cost of hiring employees is being cut by up to 50% This does not necessarily mean that the amount of profit is increased but employees are able to be assigned to different tasks meaning that they spend less time in front of customers thus increasing their profits
