**Critical AI in K-12 Classrooms**

Stephanie Smith Budhai, Marie K. Heath, 2025-09-08

A practical guide for teachers and students navigating the complicated intersection of artificial intelligence education and justice

Artificial intelligence is rapidly integrating into today s classrooms but unlike other new technologies AI has the potential to harm making it difficult to take advantage of its benefits

In Critical AI in K 12 Classrooms Stephanie Smith Budhai and Marie K Heath draw attention to the biases embedded within AI algorithms such as those powering OpenAI s ChatGPT and DALL E to guide students and teachers in developing strategies to best incorporate AI or not into equitable learning

AI s reliance on existing data and knowledge systems means Black queer those with disabilities and other marginalized students are at greater risk of being harmed by built in limitations and bias

Budhai and Heath show how to circumvent if not actively resist such harms as machine learning NLPs LLMS and GenAI enter the classroom with practical examples rooted in culturally sustaining abolitionist and fugitive pedagogies across disciplines

Their practical guide creatively answers the concerns of educators committed to forward thinking yet fair instruction and the needs of students eager to use AI for just ends

Critical AI in K 12 Classrooms meets the challenges of a key STEM technology with an eye toward cultivating a more just world

Balancing responsible learning with the joy of discovery

Budhai and Heath build a framework for AI instruction that all educators can confidently use

**Non-Bullshit Innovation**

David Rowan, 2019-05-16 updated with new material

Digital transformation and disruptive innovation used to be empty buzzwords serving to justify pointless box ticking and absurd corporate posturing

And then a global pandemic suddenly forced every kind of organization to embrace genuine urgent innovation as a matter of survival

But how can we ensure that the non bullshit version of innovation delivers economic recovery at this crucial moment

Are there strategies we can all adapt from the world s most creative leaders to innovate effectively in our own lives

David Rowan founding editor in chief of WIRED UK embarked on a twenty country quest to find out

Packed full of tips for anyone looking for radical ways to adapt and thrive in the digital age this carefully curated selection of stories will prepare you for whatever the future may bring because the world will never move this slowly again \_\_\_\_\_

In this remarkable book David Rowan tells a story of

transformation how an organisation has found a new way of doing things through innovation driven by ruthless entrepreneurial imagination What is especially useful is that he does not just stick with small startups let alone dreamy inventors He finds innovation in big companies and even within governments Matt Ridley The Times

**How to Speak Whale** Tom Mustill,2022-09-06 What if animals and humans could speak to one another Tom Mustill the nature documentarian who went viral when a thirty ton humpback whale breached onto his kayak asks this question in his thrilling investigation into whale science and animal communication A New Yorker Best Book of 2022 When a whale is in the water it is like an iceberg you only see a fraction of it and have no conception of its size On September 12 2015 Tom Mustill was paddling in a two person kayak with a friend just off the coast of California It was cold but idyllic until a humpback whale breached landing on top of them releasing the energy equivalent of forty hand grenades He was certain he was about to die but they both survived miraculously unscathed In the interviews that followed the incident Mustill was left with one question What could this astonishing encounter teach us Drawing from his experience as a naturalist and wildlife filmmaker Mustill started investigating human whale interactions around the world when he met two tech entrepreneurs who wanted to use artificial intelligence AI originally designed to translate human languages to discover patterns in the conversations of animals and decode them As he embarked on a journey into animal eavesdropping technologies where big data meets big beasts Mustill discovered that there is a revolution taking place in biology as the technologies developed to explore our own languages are turned to nature From seventeenth century Dutch inventors to the whaling industry of the nineteenth century to the cutting edge of Silicon Valley How to Speak Whale examines how scientists and start ups around the world are decoding animal communications Whales with their giant mammalian brains virtuoso voices and long highly social lives offer one of the most realistic opportunities for this to happen But what would the consequences of such human animal interaction be We re about to find out
