The Future CMO: AI, Metrics & Scalable Growth in 2025 Shivam Oberoi, 2025-11-25 The marketing landscape has changed more in the last five years than in the two decades before it. What once worked: traditional advertising, broad personas, siloed channels, is no longer enough. Today's Chief Marketing Officer (CMO) must navigate an entirely new reality: one driven by real-time data, powered by artificial intelligence, and measured by direct impact on revenue. Modern marketing is complex, fast-moving, and increasingly accountable. CMOs are expected to own more of the customer journey than ever before. From awareness to retention, from acquisition cost to lifetime value, everything is interconnected. In this environment, those who can harness data and automation, lead cross-functional teams, and build adaptable strategies will win. This book was written for the modern marketer who refuses to be left behind.

Each chapter offers a window into a different layer of the AI ecosystem, from raw computational architecture to subtle language performance, from prompt engineering battles to global regulatory implications. Inside This Book You'll Discover: The roots of the AI rivalry and what sparked the modern machine intelligence race. Why Qwen AI could be the quiet disruptor redefining scale and practicality. The technical war over context windows, latency, and output quality. Which models thrive under real-world pressure and where they break down. The truth about AGI: who's closest, what's at stake, and how global collaboration could be the only way forward.
