

7 Quick Ways

Teachers Can Save Time with ChatGPT

01

Email Reminders

Try using the prompt "Write an email to remind families about our field trip to the museum next week."

02

Rewrite a Sentence

Worried that part of a task or email doesn't sound quite right? Use the prompt, "Rewrite this sentence so it is clearer."

03

Simplify Your Writing

Try the prompt, "Simplify this, so it is less confusing." Then paste the paragraph you wrote.

04

Explain Something

Use a prompt like "Explain the process of..." It can save time by giving you a starting point instead of writing entirely from scratch.

05

Titles & Descriptions

Do you make videos for your students? Try having ChatGPT write the video titles and descriptions for you.

06

Keyboard Shortcuts

Try asking ChatGPT to help you find shortcuts. Ask, "Make a list of keyboard shortcuts for Google Calendar."

07

Email Revisions

Write an email, and paste the text into ChatGPT with the prompt "Rewrite this email so it is friendly, clear, and professional."

Generative AI and Education B. Mairéad Pratschke, 2024-08-27 This volume addresses the gap in knowledge around generative AI and its applications in education It draws on the recent history of technological innovation and digital pedagogies locating generative AI in the contemporary discourse around education futures It argues that a new hybrid model of education is emerging requiring educational institutions to embed generative AI into course and programme design delivery and assessment It also proposes a shift from a focus on learning as output to learning as a process and

explores what that shift might look like Grounded in educational theory it offers actionable pedagogy informed guidance on how to position AI as a collaborator in the construction of learning in a manner that is congruent with the values and aims of education It offers advice based on evidence based digital pedagogy including frameworks for effective teaching and learning with generative AI that enable educators and designers to put these ideas into practice The book also explores the wider context informing this shift connecting narratives from governments and industry leaders on the strategic importance of generative AI and lifelong learning learning agility and future skills that make the case for the integration of competency based assessment into mainstream education Finally going beyond pedagogy and practice it considers some of the broader issues including limitations and ethics and the implications of integrating generative AI into institutional planning and design and includes a sample roadmap for education leaders to start the process of integrating generative AI into their institutions This work approaches the topic of generative AI from the vantage point of educators by addressing themes and concerns that will resonate with professionals in the sector
