Windows Video Editor Made Easy James Bernstein,2021-06-12

Video editing software has been around for many years and for many years only people who were in the movie business or had a large budget could afford to use such software Even when your average home videographer was able to afford their own video camera they still had no reasonable way to edit their movies Now that everyone has a smartphone and considers themselves a professional movie maker the need to edit their own footage has dramatically increased Thankfully Microsoft has a free app built into Windows that allows anyone with a camera and a computer to make some great looking movies If you have some basic computer skills and a little creativity it s not too difficult to create your own movies that will make your viewers think you are a video editing pro You can even use the footage from your smartphone to create custom videos and add all kinds of fun effects text and music to your movies The goal of this book is to get you up and running with the Windows Video Editor and cover all the things you need to know to get you started on making great looking videos without confusing

you at the same time It sticks with the basics yet covers a wide variety of topics to help you achieve some great looking results without needing to be a movie editing expert The chapters in the book cover the following topics Chapter 1 The Video Editor Interface Chapter 2 Importing Videos Into Your Project Chapter 3 Editing Your Videos Chapter 4 Exporting Your Video Chapter 5 Settings and Additional Features About the Author James Bernstein has been working with various companies in the IT field for over 20 years managing technologies such as SAN and NAS storage VMware backups Windows Servers Active Directory DNS DHCP Networking Microsoft Office Exchange and more He has obtained certifications from Microsoft VMware CompTIA ShoreTel and SNIA and continues to strive to learn new technologies to further his knowledge on a variety of subjects He is also the founder of the website OnlineComputerTips.com which offers its readers valuable information on topics such as Windows networking hardware software and troubleshooting Jim writes much of the content himself and adds new content on a regular basis The site was started in 2005 and is still going strong today
