Getting Skills Right Training Supply for the Green and AI Transitions
Equipping Workers with the Right Skills OECD, 2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this report uses

evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies **Augmented** Giulio Toscani, 2025-05-01 In a world where artificial intelligence is reshaping industries how can we ensure that AI enhances human skills rather than replacing them This book offers readers an accessible and insightful guide to the positive potential of AI for human augmentation Drawing from consultations with 150 AI experts from across 50 countries Augmented introduces the concept of prAIority which connects three essential pillars data AI systems and human judgment It examines how data fuels innovation the intricacies of designing and refining AI systems and the critical role of human expertise in harnessing AI s strengths Breaking down complex ideas this book equips readers with the knowledge to understand how AI can be integrated into their decision making processes ultimately empowering them to achieve better outcomes in diverse fields such as healthcare design and business With a focus throughout on human AI collaboration rather than automation and on seamless integration for smarter faster decisions and innovation this is a must read book for professionals looking to enhance their skills and stay ahead in the AI driven future as well as curious beginners seeking a clear framework
