A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. **Artificial Intelligence for Strategic Communication** Karen E. Sutherland, 2025-02-17 In an era where AI is revolutionising every aspect of communication, this groundbreaking research monograph provides an essential roadmap for navigating the intersection of artificial intelligence and strategic communication. Drawing on extensive primary research including interviews with 41 experts and surveys of 400 professionals across three continents and eight countries, this book provides insights from relevant scholars, communication practitioners, and AI tool developers. This comprehensive guide combines scholarly rigour with practical application, presenting a data-informed Model for Practice that helps to withstand the constant evolution of AI technology. Each chapter delivers research-informed, actionable tools relating to the multifaceted field of strategic communication, including ethical practice, strategy development, content creation, evaluation, and continuous improvement. Bridging the gap between theoretical understanding and practical implementation, *AI for Strategic Communication* is an invaluable resource for strategic communication scholars, students, and practitioners essential for advancing careers in the age of AI. This work emerged from the need for a comprehensive source combining scholarly, practitioner, and AI developer perspectives on strategic communication from around the globe. *Handbook of Research on Using Educational Robotics to Facilitate Student Learning* Papadakis, Stamatios, Kalogiannakis, Michail, 2020-12-05 Over the last few years, increasing attention has been focused on the development of children's acquisition of 21st-century skills and digital competences. Consequently, many education scholars have argued that teaching technology to young children is vital in keeping up with 21st-century employment patterns. Technologies such as those that involve robotics or coding apps come at a time when the demand for computing jobs around the globe is at an all-time high while its supply is at an all-time low. There is no doubt that coding with robotics is a wonderful tool for learners of all ages as it provides a catalyst to introduce them to computational thinking.

algorithmic thinking and project management Additionally recent studies argue that the use of a developmentally appropriate robotics curriculum can help to change negative stereotypes and ideas children may initially have about technology and engineering The Handbook of Research on Using Educational Robotics to Facilitate Student Learning is an edited book that advocates for a new approach to computational thinking and computing education with the use of educational robotics and coding apps The book argues that while learning about computing young people should also have opportunities to create with computing which have a direct impact on their lives and their communities It develops two key dimensions for understanding and developing educational experiences that support students in engaging in computational action 1 computational identity which shows the importance of young people s development of scientific identity for future STEM growth and 2 digital empowerment to instill the belief that they can put their computational identity into action in authentic and meaningful ways Covering subthemes including student competency and assessment programming education and teacher and mentor development this book is ideal for teachers instructional designers educational technology developers school administrators academicians researchers and students Beneath the Roar and Tumult Rachel Wheeler, Karen E. Eifler, 2025-10-26 How do Catholic university faculty attend to and support the prophetic imaginations of their students Among the treasures of the Catholic intellectual tradition two are especially vital for contemporary Catholic education the sacramental imagination and prophetic imagination A sacramental imagination as illuminated in this book s companion Becoming Beholders posits that God is made manifest in all the academic life But that reality of beauty and goodness must be held in tension with the prophetic imagination a worldview that is acutely attuned to injustices and looks with creative eyes towards a more peaceful and equitable world Composed of essays by faculty in Catholic higher education in various fields Beneath the Roar and Tumult addresses this tension with insight into practical strategies for attending to the prophetic imagination in the classroom In the classroom educators are called on to create spaces for their students to grapple with inequalities and to dream of an actionable way forward while cultivating a more wholistic vision of academic life in solidarity with the world outside of it Beneath the Roar and Tumult offers practical guidance for fostering inclusion and belonging in college classrooms to provide a space where the prophetic imagination is embraced *You to the Power of Two* Joseph Bradley, Don Tapscott, 2025-12-02 A new and previously unexplained era of artificial intelligence will transform human life forever Discover what this means for our personal identity and our future AI tools are already reshaping the way we work and communicate but as they gain autonomy they will no longer be mere tools they will become active participants in our world As our digital identities become smarter and more capable we enter the age of identic AI a world where ever present AI companions streamline daily tasks enhance wellbeing and offer lifelong learning For professionals these intelligent agents will amplify creativity boost productivity and expand human potential But with this extraordinary promise comes profound risks to individuals businesses and society itself From technology experts Joseph M Bradley and Don Tapscott You to the
