Conventional Deterrence

David W. Tarr

Conventional Deterrence:

Conventional Deterrence John J. Mearsheimer, 1985-08-21 *Conventional Deterrence* is a book about the origins of war Why do nations faced with the prospect of large scale conventional war opt for or against an offensive strategy John J Mearsheimer examines a number of crises that led to major conventional wars to explain why deterrence failed He focuses first on Allied and German decision making in the years 1939 1940 analyzing why the Allies did not strike first against Germany after declaring war and conversely why the Germans did attack the West Turning to the Middle East he examines the differences in Israeli and Egyptian strategic doctrines prior to the start of the major conventional conflicts in that region Mearsheimer then critically assays the relative strengths and weaknesses of NATO and the Warsaw Pact to determine the prospects for conventional deterrence in any future crisis He is also concerned with examining such relatively technical issues as the impact of precision guided munitions PGM on conventional deterrence and the debate over maneuver versus attrition warfare Mearsheimer pays considerable attention to questions of military strategy and tactics Challenging the claim that conventional detrence is largely a function of the numerical balance of forces he also takes issue with the school of thought that ascribes deterrence failures to the dominance of offensive weaponry In addition to examining the military consideration underlying deterrence he also analyzes the interaction between those military factors and the broader political considerations that move a nation to war *American Defense Policy* Peter L. Hays, Brenda J. Vallance, Alan R. Van Tassell, 1997 defense policies reviewing excerpts from key defense policy statements and assessing the likely challenges for future policy makers Brent Scowcroft International Affairs **Nuclear Asymmetry and Deterrence** Jan Ludvik, 2016-11-10 This book offers a broader theory of nuclear deterrence and examines the way nuclear and conventional deterrence interact with non military factors in a series of historical case studies The existing body of literature largely leans toward the analytical primacy of nuclear deterrence and it is often implicitly assumed that nuclear weapons are so important that when they are present other factors need not be studied This book addresses this omission It develops a research framework that incorporates the military aspects of deterrence both nuclear and conventional together with various perceptual factors international circumstances domestic politics and norms This framework is then used to re examine five historical crises that brought two nuclear countries to the brink of war the hostile asymmetric nuclear relations between the United States and China in the early 1960s between the Soviet Union and China in the late 1960s between Israel and Iraq in 1977 1981 between the United States and North Korea in 1992 1994 and finally between the United States and the Soviet Union during the 1962 Cuban missile crisis The main empirical findings challenge the common expectation that the threat of nuclear retaliation represents the ultimate deterrent In fact it can be said with a high degree of confidence that it was rather the threat of conventional retaliation that acted as a major stabilizer This book will be of much interest to students of nuclear proliferation cold war studies deterrence theory security studies and IR in general Morality, Prudence, and Nuclear

Weapons Steven P. Lee,1996-11-13 This 1993 book is the first post Cold War assessment of nuclear deterrence providing a comprehensive normative understanding of nuclear deterrence policy **Conventional Deterrence** James Reed

Deterrence and Strategic Culture Shu Guang Zhang,1992 Does strategic thinking on the question of deterrence vary between cultures Should practitioners assume a common understanding of deterrence regardless of national and cultural differences Shu Guang Zhang takes on these questions by exploring Sino American confrontations between 1949 and 1958 Zhang draws on recently declassified U S documents and previously inaccessible Chinese Communist Party records to demonstrate that the Chinese and the Americans had vastly different assessments of each other s intentions interests threats strengths and policies during this period *Deterrence and Deterrence Interaction* N. Marais,1984 **On Small War**

Sibylle Scheipers,2018-02-09 Carl von Clausewitz has long been interpreted as the paradigmatic thinker of major interstate war This book challenges this assumption by showing that Clausewitz was an ardent analyst of small war and integrated many aspects of his early writings on partisan warfare and people s war into his magnum opus On War It reconstructs Clausewitz s intellectual development by placing it in the context of his engagement with the political and philosophical currents of his own times German Idealism Romanticism and Humanism The central question that Clausewitz and his contemporaries faced was how to defend Prussia and Europe against Napoleon s expansionist strategy On the one hand the nationalization of war that had occurred as a result of the French Revolution could only be countered by drawing the people into the defence of their own countries On the other this risked a descent into anarchy and unchecked terror as the years 1793 and 1794 in France had shown Throughout his life Clausewitz remained optimistic that the institution of the Prussian Landwehr could achieve both an effective defence of Prussia and a social and political integration of its citizens Far from leaving behind his early advocacy of people s war Clausewitz integrated it systematically into his mature theory of war People s war was war in its existential form it risked escalating into absolute war However if the threat of defensive people s war had become a standard option of last resort in early nineteenth century Europe it could also function as a safeguard of the balance of power **Israel's Deterrence Strategy Revisited** Efraim Inbar,1994 *Conventional Deterrence into the 1990s* Thomas Boyd-Carpenter,1989-06-18 A selection of ten lectures on the future of conventional deterrence is drawn together by a new essay on the subject The study suggests how NATO policy strategy and tactics must evolve to cope with new circumstances and limited budgets and the role Britain should play in this **Strengthening Conventional**

Deterrence In Europe Andrew J. Goodpastor,Gen Rtd,Andrew J Goodpastor,2019-06-21 The European Security Study ESECS published its Report on Strengthening Conventional Deterrence in Europe in May 1983 The Study was prompted by concern about the relation of NATO dependence on the early use of nuclear weapons to its primary purpose of maintaining secure peace with freedom in the NATO region **START and the Future of Deterrence** Michael J. Mazarr,1990

Examining the future of nuclear deterrence in the 1990s and beyond this book outlines aspects of the evolving strategic environment It also projects the likely future of deterrence strategies and strategic force postures Other topics such as the Soviet nuclear doctrine are also covered *Deterrence and Defence in a Post-nuclear World* Gary L. Guertner,1990 This book studies the obstacles to conventional deterrence Soviet style Soviet incentives for conventional deterrence and arms control *Deep Cuts and the Future of Nuclear Deterrence* Aspen Strategy Group (U.S.),1989 This volume opens with an analysis of public opinion data which reveals that several common beliefs about public attitudes toward defense are myths The public has not repudiated nuclear deterrence public attitudes are quite stable not volatile and public opinion is not contradictory Despite the politicization of nuclear weapons policy this report explains three key elements can be combined to form a national security strategy which could be supported by a consensus of experts and publics among the Western alliance First in terms of nuclear weapons the focus of arms control negotiation should be redirected to enhancing stability at substantially lower numbers In terms of conventional weapons several initiatives should be undertaken Also civilian political leaders should begin a major NATO based study on warning and decision making Furthermore a consensus defense and arms control strategy should include restrictions on anti satellite weapons and SDI This volume is divided into five parts Introduction Stability and Change in Public Opinions about Nuclear Weapons Policy 1945 1987 Four Alternative National Security Futures Lessons Learned from Examining Radical Changes and Building Towards a Consensus Co published with the Aspen Strategy Group *Deterrence and Strategy* André Beaufre,1966 **Extended Deterrence** Stephen J. Cimbala,1987 **Complex Deterrence** T. V. Paul,Patrick M. Morgan,James J. Wirtz,2009-09 Papers presented at a conference at McGill University in Montraeal in May 2007 *Reconceptualizing Deterrence* Elli Lieberman,2012-09-10 This book offers a reconceptualisation of conventional deterrence theory and applies it to enduring rivalries in the Middle East The work argues that many of the problems encountered in the development of deterrence theory lay in the fact that it was developed during the Cold War when the immediate problem it had to address was how to prevent catastrophic nuclear wars The logic of nuclear deterrence compelled a preoccupation with the problem of stability over credibility however because the logic of conventional deterrence is different the solution of the tension between credibility and stability is achieved by deference to credibility due to the requirements of reputation and costly signaling This book aims to narrow the gap between theory and evidence It explores how a reconceptualization of the theory as a process that culminates in the internalization of deterrence within enduring rivalries is better suited to account for its final success a finding that has eluded deterrence theorists for long This interdisciplinary book will be of much interest to students of deterrence theory strategic studies international security Middle Eastern studies and IR in general *Deterrence in the 1980s* Anthony H. Cordesman,D. J. Alberts,1982 En grundig gennemgang af nogle af de sp rgsm l der er knyttet til en svingning fra anvenelse af atomv ben som krigsforebyggelse til anvendelse af konventionelle v ben Nuclear Deterrence and International Security David W.
