Hendricks, Duncan Pritchard, 2008-01-15 In the past thirty years epistemology has been one of the fastest moving disciplines in philosophy The reason for the rapid advancement is partly due to the fact that various schools and movements inside epistemology have developed different answers to classical epistemological problems and partly due to the fact that formal methods from logic probability theory

and computability have been utilized to deal with many of the same issues and used for applications outside traditional epistemology New Waves in Epistemology reflects these changes by letting up and coming scholars describe the current trends as well as discussing the prospects for future development Revue internationale de philosophie ,2009
