*Conversation Pieces* Mario Praz, 1971 Professor Praz traces the history of the conversation piece which is an intimate group portrait usually of small dimensions and is a genre which arose in the Low countries flourished in 18th century England and declined with the invention of photography The Conversation Piece 2 Bret Nicholaus, Paul Lowrie, 2000 The Conversation Piece Too gets people talking about everyday opinions life changing moments and everything in between If you had to write a one sentence mission statement for your life what would it be 22 Thinking back to all the TV series finales that you've seen over the years which show do you think had the best final episode 3 If you could be a contestant on any game show past or present which show would you pick 253 The Conversation Piece Too gives you a chance to find out what people think about the big questions and the little ones In one sentence what do you believe is the secret of life 97 In your opinion what flavor of ice cream would best describe your disposition 298 Get to know your family and your friends even yourself a lot better **The Conversation Piece** Desmond Shawe-Taylor, 2009 The Conversation Piece is an intriguing contradiction the high life group but caught informally off guard Popular in seventeenth century Dutch painting it developed to include sporting events and Grand Tourists and reached its apogee in the eighteenth century in the masterpieces created by Johan Zoffany for his English patrons including George III This new publication accompanies the first exhibition on this subject for over thirty years presenting early Dutch and Flemish genre paintings against their successors in the informal portraiture of Stubbs and Hogarth as well as iconic works by Zoffany himself It also provides a unique opportunity to connect the study of the conversation in eighteenth century English art to its seventeenth century European predecessors Book Jacket

Conversation Piece Molly Keane, 2013-05-02 FOR FANS OF JANE AUSTEN AND NANCY MITFORD She was marvellous GUARDIAN I admired many authors But Molly I loved DIANA ATHILL A writer of genius WALL STREET JOURNAL When Oliver visits Pullinstown he is introduced to wild days of hunting and shooting and to characters like his cousins with their passion for horses and trickery and Sir Richard elderly but a match for his headstrong offspring In this early novel by Molly Keane the high romance and disarray of the vanished Anglo Irish world is evoked with humour nostalgia and undercurrents of powerful feeling The author has also written under the pseudonym M J Farrell **The Global Eighteenth Century** Felicity Nussbaum, 2005-08-17 These essays explore both literal and metaphorical crossings of the globe addressing the cultural significance of maps paintings travel writing tourist manuals cultural identities island gardens and other topics in order to lend insight to our perception of global culture during the long 18th century *Colonizing Nature* Beth Fowkes Tobin, 2011-06-07 With its control of sugar plantations in the Caribbean and tea cotton and indigo production in India Britain in the eighteenth and nineteenth centuries dominated the global economy of tropical agriculture In *Colonizing Nature* Beth Fowkes Tobin shows how dominion over the tropics as both a region and an idea became central to the way in which Britons imagined their role in the world Tobin examines georgic poetry landscape portraiture natural history writing and botanical

prints produced by Britons in the Caribbean the South Pacific and India to uncover how each played a crucial role in developing the belief that the tropics were simultaneously paradisiacal and in need of British intervention and management Her study examines how slave garden portraits denied the horticultural expertise of the slaves how the East India Company hired such artists as William Hodges to paint and thereby Anglicize the landscape and gardens of British controlled India and how writers from Captain James Cook to Sir James E Smith depicted tropical lands and plants Just as mastery of tropical nature and especially its potential for agricultural productivity became key concepts in the formation of British imperial identity Colonizing Nature suggests that intellectual and visual mastery of the tropics through the creation of art and literature accompanied material appropriations of land labor and natural resources Tobin convincingly argues that the depictions of tropical plants gardens and landscapes that circulated in the British imagination provide a key to understanding the forces that shaped the British Empire

The Beautiful, Novel, and Strange Ronald Paulson, 2019-12-01 Originally published in 1995 In The Beautiful Novel and Strange Ronald Paulson fills a lacuna in studies of aesthetics at its point of origin in England in the 1700s He shows how aesthetics took off not only from British empiricism but also from such forms of religious heterodoxy as deism The third earl of Shaftesbury the founder of aesthetics replaced the Christian God of rewards and punishments with beauty worship of God with a taste for a work of art William Hogarth reacting against Shaftesbury's disinterestedness replaced his Platonic abstractions with an aesthetics centered on the human body gendered female and based on an epistemology of curiosity pursuit and seduction Paulson shows Hogarth creating first in practice and then in theory a middle area between the Beautiful and the Sublime by adapting Joseph Addison's category in the Spectator of the Novel Uncommon and Strange Paulson retrieves an aesthetics that had strong support during the eighteenth century but has been obscured both by the more dominant academic discourse of Shaftesbury and later Sir Joshua Reynolds and by current trends in art and literary history Arguing that the two traditions comprised not only painterly but also literary theory and practice Paulson explores the innovations of Henry Fielding John Cleland Laurence Sterne and Oliver Goldsmith which followed and complemented the practice in the visual arts of Hogarth and his followers

**Critical Inquiry: Some Winds on Works** □□□, 2009-03-01 Here is a collection of sixteen critical papers which inquire

into literary problems found in works of eight British authors Milton Blake Wordsworth Coleridge Shelley Keats Arnold and Graham Greene as well as four American authors Emerson Frost O Neill and Hemingway Each critical inquiry herein is imagined as a wind made up of the critic s breath while an author s work is imagined as an endurable rock on which the wind blows Readers may get wind of the author or the critic and may know how the wind blows and where it lies but they are expected not to expect any wind to change the rock noticeably What we want is merely the readers attention and we hope their own winds will duly come to help keep the world in winds

*The Conversation Piece* Kate Retford,2017 Pioneered by William Hogarth 1697 1764 and his peers in the early 18th century and then revitalized by Johan Zoffany 1733 1810 the conversation piece was an innovative mode of portraiture depicting groups posed in landscape or domestic settings These artists grappled with creating complex multi figured compositions and intricate narratives filling their paintings with representations of socially nationally and temporally precise customs Paying particular attention to the vibrant and at times fabricated interior and exterior settings in these works Kate Retford discusses the various ways that the conversation piece engaged with the rich material culture of Georgian Britain The book also explores how these portraits served a wide array of interests and concerns among familial networks and larger social groups From codifying performances of politeness to engaging in cross cultural exchanges the conversation piece was a complex and nuanced expression of a multifaceted society Publisher s description
