The Age of Conversation Benedetta Craveri, 2006-08-01 Now in paperback an award winning look at French salons and the women who presided over them In the seventeenth and eighteenth centuries between the reign of Louis XIII and the Revolution French aristocratic society developed an art of living based on a refined code of good manners Conversation which began as a way of passing time eventually became the central ritual of social life In the salons freed from the rigidity of court life it was women who dictated the rules and presided over exchanges among socialites writers theologians and statesmen They contributed decisively to the development of the modern French language new literary forms and debates over philosophical and scientific ideas With a cast of characters both famous and unknown ranging from the Marquise de Rambouillet to Madame de Sta l and including figures like Ninon de Lenclos the Marquise de Sevigne and Madame de Lafayette as well as Pascal La Rochefoucauld Diderot and Voltaire Benedetta Craveri traces the history of this worldly society that carried the art of sociability to its supreme perfection and ultimately helped bring on the Revolution that swept it all away

The Costs of Conversation Oriana Skylar Mastro Consulting LLC, 2019-03-15 After a war breaks out what factors influence the warring parties decisions about whether to talk to their enemy and when may their position on wartime diplomacy change How do we get from only fighting to also talking In The Costs of Conversation Oriana Skylar Mastro argues that states are primarily concerned with the strategic costs of conversation and these costs need to be low before combatants are willing to engage in direct talks with their enemy Specifically Mastro writes leaders look to two factors when determining the probable strategic costs of demonstrating a willingness to talk the likelihood the enemy will interpret openness to diplomacy as a sign of weakness and how the enemy may change its strategy in response to such an interpretation Only if a state thinks it has demonstrated adequate strength and resiliency to avoid the inference of weakness and believes that its enemy has limited capacity to escalate or intensify the war will it be open to talking with the enemy Through four primary case studies North Vietnamese diplomatic decisions during the Vietnam War those of China in the Korean War and Sino Indian War and Indian diplomatic decision making in the latter conflict The Costs of Conversation demonstrates that the costly conversations thesis best explains the timing and nature of countries approach to wartime talks and therefore when peace talks begin As a result Mastro s findings have significant theoretical and practical implications for war duration and termination as well as for military strategy diplomacy and mediation
