Conversations With French Philosophers:

Conversations with French Philosophers Florian Rötzer, 1995 This volume consists of interviews with eight contemporary French philosophers The main issue is how contemporary French philosophy is received in Germany particularly by thinkers such as Juergen Habermas who tend to characterize the French as irrationalists

French Philosophers Talking, 1991 **Badiou and the Philosophers**, 2013-03-14 Between 1965 and 1968 the celebrated French philosopher Alain Badiou hosted a televised series in which he interviewed some of the most influential contemporary philosophers of the period including Michel Foucault Paul Ricoeur Michel Henry and Michel Serres This book presents the first English language translation of those interviews Although Badiou had yet to publish the books that would go on to mark him out as the leading thinker of his generation Being and Event and Logics of Worlds his unique approach and highly original ideas are present in each discussion and the interviews present his philosophical origins in a lively and engaging context More importantly these highly accessible and entertaining interviews provide a snapshot of French philosophy in the 1960s setting the scene for the very public and political context of philosophy in the period immediately preceding the events of May 68 where philosophy played a crucial role The book includes a new essay by Badiou in which he reflects on the project 30 years on

Heidegger and French Philosophy Tom Rockmore, 2002-09-11 Martin Heidegger s impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger s thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken

Dissertations and Discussions: Political,

Philosophical, and Historical: Vindication of the French revolution of February, 1848; in reply to Lord Brougham and others. Appendix. Enfranchisement of women. Dr. Whewell on Moral philosophy. Grote's History of Greece. A few words on non-intervention. The slave power. Utilitarianism John Stuart Mill,1874 **For Strasbourg** Jacques Derrida,2014-04-01 The eminent philosopher pays homage to his beloved French city and the philosophical friendships he had there an illuminating addition to his legacy The Times Literary Supplement A towering figure in twentieth century philosophy Jacques Derrida was born in Algeria but spent four decades living in the French city of Strasbourg located on the border between France and Germany This moving collection of writings and interviews about his life there opens with The Place Name s Strasbourg an essay written just a month before his death which recounts his deep attachment to his adoptive home More than just a personal narrative however the essay is a profound interrogation of the relationship between philosophy and place philosophy and language and philosophy and friendship As such it raises a series of philosophical political and ethical questions that might all be placed under the aegis of what Derrida once called philosophical nationalities and nationalism Also included are transcribed conversations between Derrida and his two principal interlocutors in Strasbourg Jean Luc Nancy and Philippe Lacoue Labarthe These interviews are significant for the themes they focus on from language and politics to friendship and life after death and for what they reveal about Derrida s relationships to Nancy and Lacoue Labarthe Filled with sharp insights into one another s work and peppered with personal anecdotes and humor the interviews bear witness to the long intellectual friendships of these three important thinkers The Popular Encyclopedia; Or "Conversations Lexicon": Being a General Dictionary of Arts, Science, Literature, Biography, History, Ethics and Political Economy Encyclopaedias,1841 Dissertations and Discussions: Vindication of the French revolution of February, 1848; in reply to Lord Brougham and others ; Appendix ; Enfranchisement of women ; Dr. Whewell on moral philosophy ; Grote's history of Greece ; A few words on nonintervention ; The slave power ; Utilitarianism John Stuart Mill,1882 **Michel Serres and French Philosophy of Science** Massimiliano Simons,2022-03-24 Massimiliano Simons provides the first systematic study of Serres s work in the context of 20th century French philosophy of science By proposing new readings of Serres s philosophy Simons creates a synthesis between his predecessors Gaston Bachelard Georges Canguilhem and Louis Althusser as well as contemporary Francophone philosophers of science such as Bruno Latour and Isabelle Stengers Simons situates Serres s unique contribution through his notion of the quasi object a concept he argues organizes great parts of Serres s work into a promising philosophy of science as well as a challenge to the narrower field of French epistemology to which it has often been limited Simons highlights how the concept encompasses Serres s commitment to positive relations between science and culture and his rejection of pleas to purify the scientific self from imaginative and cultural elements It helps to situate Serres between the distinct traditions of Bachelard and Latour as well as progressing the innovative aspects of Serres s philosophy for current debates in the philosophy history and sociology of science Showing how Serres s

philosophy can serve as a normative approach to science and technology Michel Serres and French Philosophy of Science takes in themes of materiality religiosity modernity and ecology to advance a timely alternative to philosophy of science for contemporary life

Jean-Francois Lyotard Jean-Francois Lyotard, 2025-10-02 With contributions selected from the last fifteen years of his life this second volume of Jean Fran ois Lyotard s interviews and debates includes hard to find and previously untranslated material Taking place between 1984 and 1997 they follow in the wake of Lyotard s most notable publications including The Postmodern Condition 1979 and The Differend 1983 Whilst continuing to contest and reconfigure the claims of these writings Lyotard and his interlocutors help to contextualise the questions raised within the fields of art philosophy literature and politics Discussions in Paris and London include contributions from thinkers such as Philippe Lacoue Labarthe Christine Buci Glucksmann and Alain Badiou whilst significant interviews elsewhere in Europe North and South America elucidate the consequences of the varied reception given to his work The importance of Kant Freud and Wittgenstein is readily apparent as are the themes now closely associated with Lyotard the inhuman infancy and resistance to the system These interviews and debates record an evident delight in the activity of thinking which is not about rhetorical flourish or rehashing staid assumptions but of grappling with some of the most important questions confronting thought today
