Conversion Of Iceland:

The Conversion of Iceland - a Political Event Marc Neininger, 2007-12 Essay from the year 2004 in the subject History Europe Other Countries Middle Ages Early Modern Age grade 1 0 The University of Western Ontario course Old Iceland 7 entries in the bibliography language English abstract The conversion of Iceland in the year 1000 A D was doubtlessly an event of great importance in the history of the country This is reflected in the number of sources that give an account of the happenings here especially the *Islendigabok* written by Ari the Wise has to be named foremost since it is our oldest and also most reliable source St mb ck 18 A alsteinsson 55 Ari wrote the *Islendigabok* some time in the years between 1122 and 1132 He himself states that it is our duty to give preference to that which is proved to be most correct Ari 59 The *Islendigabok* can indeed be seen as the first work of Historiography in Iceland One reason for this is that Ari names his major sources and refers to them when he talks about singular events When the Al ing accepted Christianity the consequences must have been clear The ignorance and indifference towards Christianity thereafter shows that the actual event of the Conversion was a political one and only on a secondary level a religious one The conversion to Christianity was a long process that became more serious only with the second bishop of Iceland Gizur Isleifsson from on The reason for the acceptance of Christianity remains obscure I believe though that there was pressure from King Olaf Tryggvason This would explain the optimism of Gizur the White and Hjalti when they came to the Al ing This pressure might range from persecution of Icelanders to war to economical repressions The menacing collapse of the Icelandic commonwealth might also play a role However even if these assumptions would turn out to be incorrect the conversion of Iceland in the year 1000 A D still remains to a very large degree a political event *The Conversion of Iceland* Dag Strömbäck, 1975 Conversion of Iceland Deb Willaims, Amanda Hill, 2021-12-02 The Icelanders are a people with many historical accounts and strong faith Since settling in Iceland they have struggled between faith in their pagan gods and Christianity Extensive research using primary sources such as the *Book of the Icelanders* and multiple sagas shows religion has always played a significant role in their adventures travels wars and home life Blood has been shed wars waged and cultures changed in the name of religion The *Book of Settlements* tells in the early years Christians and pagans lived together but because of warfare political economic and social reasons they needed to declare one and only one religion The Althing declared Christianity as Iceland s official religion This did not stop the struggle and ignited problems of its own Christianity was Iceland s only recognized religion until 1874 when the 64th article of the Constitution guaranteed freedom of religion Once doors were opened to other religions Icelandic people began to convert to their ancient Norse gods While laws continue to favor Christianity Asatru is the fastest growing religion in Iceland today As from the time of the first settlers the battle of religions in Iceland is still alive today **Under the Cloak** Jón Hnefill Aðalsteinsson, 1999 This book takes its title from the momentous decision of the Icelandic law giver Thorgeir in AD 1000 to adopt Christianity as the island s official religion According to tradition this was taken as he lay under a cloak presumably

seeking inspiration from his pagan deities First published in 1979 the present edition expands its discussion of the background to this peaceable adoption of the new faith and its growth under succeeding generations The author shows how tolerance and pragmatism were early features of the Icelandic church **The Conversion of Iceland** James Heiser,1995

History of America Before Columbus Peter De Roo,1900 **History of America Before Columbus: European immigrants** Peter De Roo,1900 **Survivals of Paganism in Christian Medieval Iceland** Deborah Grossman,1988 In the summer of the year 1000 A D the General Assembly of Iceland voted to convert to Christianity The basis for this decision was political rather than religious as it was to prevent civil dissension This factor influenced the subsequent impact of Christianity on Icelandic society and made possible the survival of numerous pagan practices and values Contemporary literary sources especially the Icelandic Family sagas not only cover the conversion of Iceland the ensuing conflicts and tensions between paganism and Christianity and pagan survivals under Christianity they also include many descriptions of pagan religion and pre Christian society in Iceland A study of the Family sagas requires a knowledge of pre Christian Germanic religion and society of Christianization of Scandinavia in general the conversion and Iceland in particular and of the different forms of literature which have preserved this information Background information on Germanic paganism is important for the study of Scandinavian paganism as the two are closely related Information on Germanic paganism comes mostly from Roman accounts such as the Germania by Tacitus and archaeological evidence A more specific study of Scandinavian paganism is necessary to understand pre Christian society in Iceland and to understand the conflicts which later arose between Christianity and paganism The Poetic Edda is one of the most important sources of information on Scandinavian paganism as well as archaeological discoveries The conversion and Christianization of Iceland was a process covering over 200 years affecting all aspects of Icelandic society Iceland was the last of the four Scandinavian countries to be converted and it also produced most of the literature written in the Norse languages surviving from that time These facts help to explain the frequent accounts in Icelandic literature of pagan religious practices and values many of which evidently survived in Icelandic society well into Christian times There are many contemporary written sources for the conversion and Christianization processes from ecclesiastical records to works by Icelandic historians to less historical saga accounts A discussion of the various forms of Scandinavian literature is included here with an emphasis special importance is the debt on the Family sagas Of owed to Christianity for its introduction of the Roman alphabet and the importance of Christian leaders in educating the population However the Icelanders quickly adopted the alphabet for use in writing secular works in the vernacular as well including the Family sagas The various debates concerning the historical validity of the sagas are covered as well Next the Icelandic Family sagas are each discussed individually All of them contain at least some historical facts as well as information on pagan religion and pre Christian society There is also some evidence of the conflict between paganism and Christianity around the time of the conversion The

final chapter summarizes the impact of Christianity on Icelandic religious social and political institutions focusing on the evidence of pagan survivals in these areas Pagan religion and Germanic social and moral codes were not eradicated by Christianity Rather Christianity adopted and adapted many aspects of pagan religion into its rituals and festivals Many pagan and Christian values and customs were similar enough to fuse without any effort while others simply continued to exist alongside one another The Family sagas when cross checked against more reliable historical sources can provide an informative picture of paganism the conversion conflicts between Christianity and paganism and the survival of pagan Germanic concepts well after Christianity had been accepted **Church History** Johann Heinrich Kurtz, John Macpherson, 1892

General History of the Christian Religion and Church August Neander, 1871 **The Christianization of Iceland** Orri Vesteinsson, 2000-05-18 In this first historical study of High Medieval Iceland to be published in English Dr Vesteinsson investigates the influence of the Christian Church on the formation of the earliest state structures in Iceland from the conversion in 1000 to the union with Norway in 1262 In the history of mankind states and state structures have usually been established before the advent of written records As a result historians are rarely able to trace with certainty the early development of complex structures of government In Iceland literacy and the practice of native history writing had been established by the beginning of the twelfth century whereas the formation of a centralised government did not occur until more than a hundred years later The early development of statelike structures has therefore been unusually well chronicled in the Icelandic Sagas and in the historical records of the twelfth and thirteenth centuries Based on this wealth of material The Christianization of Iceland is an important contribution to the discussion on the formation of states *A Complete Collection of the Treaties and Conventions, and Reciprocal Regulations at Present Subsisting Between Great Britain and Foreign Powers ...* Great Britain, 1924 **Telling the Story** Kathleen M. Self, 2005 **Prolonged Echoes: The reception of Norse myths in medieval Iceland** Margaret Clunies Ross, 1998 Prolonged Echoes is the second volume in the two volume study of Old Norse myths and their meaning both for us and for medieval Scandinavians some of whom we should thank for the myths written transmission through the Middle Ages and into modern times The subject of Vol 2 is the reception and use of Old Norse myths by the Cristian community of medieval Iceland It requires us to consider a wider range of Old Icelandic texts including those studied in volume one but extending to works that while not taking myth as their subject utilise it and references to it in their larger discourse A number of excellent general studies that are available to assist readers unfamiliar with recent writing on early medieval Scandinavia are listed as an addendum **Origines Islandicae** Guðbrandur Vigfússon, Frederick York Powell, 1905 *Myths of the Pagan North* Christopher Abram, 2011-03-03 As the Vikings began to migrate overseas as raiders or settlers in the late eighth century there is evidence that this new way

of life centred on warfare commerce and exploration brought with it a warrior ethos that gradually became codified in the Viking myths notably in the cult of Odin the god of war magic and poetry and chief god in the Norse pantheon The twelfth and thirteenth centuries when most of Scandinavia had long since been converted to Christianity form perhaps the most important era in the history of Norse mythology only at this point were the myths of Thor Freyr and Odin first recorded in written form Using archaeological sources to take us further back in time than any written document the accounts of foreign writers like the Roman historian Tacitus and the most important repository of stories of the gods old Norse poetry and the Edda Christopher Abram leads the reader into the lost world of the Norse gods
