Steve Gamelin, 2016-08-31 Hi I'm Steve. I am best known for my no-knead bread videos and cookbooks, but like all other bakers, I cook and bake a wide variety of foods. This is my personal cookbook, the real world cookbook I pick up and use when baking at home. It reflects my personal taste and lifestyle. While my wife and I are fortunate enough to have a full kitchen, I do the majority of my cooking and baking in limited space, kitchen next to the computer area. Thus, I do 90% of my cooking and baking using a toaster oven, microwave and portable cooktop. It's eco-friendly recipes use energy-efficient technique and appliances whenever possible without compromising quality. Recipes are designed to use bakeware with lids versus aluminum foil when possible. The ingredients are simple. I don't have a drawer full of outdated herbs and spices. Because it is the cookbook I use on a daily basis, it's very practical. I didn't create elaborate recipes to impress others; they were created for and approved by my wife, my toughest critic. And I developed recipes and techniques for baking no-knead bread and pizza in the toaster oven. I hope this becomes one of your can't-do-without cookbooks. Thanks, Steve. into Wisconsin's long ago food fads, evolutions and absurdities. Don't be surprised if this book inspires new trends that are riffs on some of these century-old ideas: Pickled walnuts anyone? Or mock pumpkin pie with prunes. Mary Bergin, author of *Wisconsin Supper Club Cookbook*, both cookbook and chronicle, *Extra Extra Eat All About It* is an ingenious, illuminating tasting menu of our culinary past. Sourced from nineteenth and early twentieth-century Wisconsin newspapers, its fifty vignettes serve up historical insights, forgotten fads and bygone recipes. From paper bag cookery and oyster saloons to fire-baked eggs and maple taffy, I ate this book right up. Terese Allen, coauthor of *The Flavor of Wisconsin*. This beautiful, fun and informative book is a masterclass in how historical cooking opens a window onto wider historical themes, including mechanization, the impacts of war, immigration, globalization and changing nutritional advice. Eleanor Barrett, author of *Leftovers: A History of Food Waste and Preservation*. Conway and Ramsden do a great job of using historical documents to demonstrate what people were eating and how they entertained. They describe recipes as interaction and community as well as how food trends change over time. The writing is smart and clever. A wonderful read. Kimberly Wilmot Voss, author of *The Food Section Newspaper: Women and the Culinary Community*. Journal Military Service Institution of the United States, 1910.

College Cooking 101 Sarah H Long, 2021-05-07 If you're going away to college, don't forget to pack this cookbook filled with delicious recipes for all the foods you love. *College Cooking 101: Fast Food Without a Kitchen* contains over 80 recipes for the grab-n-go meals that fuel today's student. This book was born out of necessity when the author's daughter did not like her college's cafeteria food and needed to start cooking in her dorm room. A series of texts of creative ideas relating to what and how she could cook grew into this book. Inside you'll find the secret to re-creating fast foods at home or in the new dorm with minimal effort. All the favorites are here: copycat Chick-fil-A cheeseburgers, mac and cheese, nachos, pumpkin lattes and more. Perfect for the hungry student or apartment dweller who's picky about what they want to eat. Impress your friends with a delicious study group snack or tailgate party made in your dorm room. The meals in this book are quick, easy to prepare and made with simple ingredients. With recipes designed for the microwave, toaster oven, electric skillet, small slow cooker and blender, it's also a tutorial on how to use basic dorm room appliances to create delicious food. It even contains meals to be made with the clever hack of using the hot water of a Keurig coffee maker. This cookbook will become your indispensable go-to guide for college food.

Ritchie, 2005-11-01 Here is another book in the Disaster Preparedness Series designed to extend the capabilities of the individual to SURVIVE whatever the calamity. If the power fails or even flickers, most of the conveniences of today's kitchen are made useless. That's when you will want to know: How to preserve foods without refrigeration. How to cook on an alternative stove. How to make survival meals. How to cook from scratch. How to cook dried foods. How to use all of the heat from your fuel. How to combine cooking with keeping warm. How to utilize the water you have. That's a beginning. Could it be that bad? Worst case planning is a must. Anything less is a blessing.
