Controlling a New Migration World Virginie Guiraudon, Christian Joppke, 2003-09-02 *Controlling a New Migration World* explores the factors that drive recent migration control policies and in turn sheds light on the unintended consequences of policies for the new character of migration This book asks how we can account for the immigration policies of liberal states Is the recent linkage between migration and security a rhetorical invention of elites or a reflection of changing migrant profiles Are states control policies effectively containing or only redirecting unwanted migration flows This increasingly relevant issue will be of great use to anyone working in comparative politics sociology and studying ethnicity or international migration as well as professionals working in the migrant asylum and public law fields Controlling a New Migration World Virginie Guiraudon, Christian Joppke, 2001 Annotation *Controlling a New Migration World* explores the factors that drive recent migration control policies and in turn sheds light on the unintended consequences of policies for the new character of migration This book asks how we can account for the immigration policies of liberal states Is the recent linkage between migration and security a rhetorical invention of elites or a reflection of changing migrant profiles Are states control policies effectively containing or only redirecting unwanted migration flows This increasingly relevant issue will be of great use to anyone working in comparative politics sociology and studying ethnicity or international migration as well as professionals working in the migrant asylum and public law fields *Trafficking and Global Crime Control* Maggy Lee, 2011 This authoritative work examines key issues and debates on sex and labor trafficking drawing on theoretical empirical and comparative material to inform the discussion of major trends and future directions The text brings together key criminological and sociological literature on migration studies gender globalization human rights security victimology policing and control to provide the most complete overview available on the subject **Canadian Liberalism and the Politics of Border Control, 1867-1967** Christopher G. Anderson, 2012-11-17 Since 9 11 Canada s reputation as an inclusive country that takes in immigrants and refugees has been clouded by restrictive immigration policies increased interdiction and the detention of asylum seekers Moreover public debate over the arrival of non citizens especially those seeking entry through unofficial channels is now often framed within a security discourse that is used to justify a more restrictive approach These developments are not surprising in the current context but as Anderson illustrates they are also nothing new *Canadian Liberalism and the Politics of Border Control* sheds light on the long and complex history of Canada s efforts to control its borders Framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson demonstrates that today s more restrictive approach reflects traditions deeply embedded within liberal democracies His insights into Canadian immigration and refugee history offer valuable lessons for understanding the nature of contemporary liberal democratic control policies **The Routledge Handbook of International Crime and Justice Studies** Bruce Arrigo, Heather Bersot, 2013-08-15 *The Routledge Handbook of International Crime and Justice Studies*

Combating Trafficking in Human Beings for Labour Exploitation Conny Rijken,2011 Combating trafficking in human beings THB for labor exploitation requires additional skills knowledge and awareness for effective investigation and prosecution and for the identification and assistance of victims of this form of THB Actors other than the police and the prosecution services such as labor inspectorates social investigation services and municipalities have also become involved in these activities It is unclear which role these actors can have in identifying victims and in investigating and prosecuting cross border THB for labor exploitation and which improvements are needed They are often unfamiliar with for instance the specific needs of victims how trafficking networks operate and how to cooperate with colleagues abroad These problems obviously hamper the combating of THB for labor exploitation In addition difficulties in defining THB for labor exploitation still exist Labor exploitation as such is not a term used in the Palermo Protocol or the EU Directive on Preventing and Combating THB and Protecting Victims One can say that labor exploitation includes at least forced and compulsory labor and services slavery and slavery like practices although this does not solve the problems encountered in defining the crime In this book these and other problems as well as the challenges of dealing with these problems are identified It includes research in five countries Austria The Netherlands Romania Serbia and Spain research on the EU legal framework an analysis of the country studies as well as four articles reflecting on these problems *The Indian Journal of Labour Economics* ,2003

Immigration under New Labour Will Somerville,2007-09-26 Lurid headlines on every aspect of migration have been a consistent feature of the last decade from worries over asylum seekers to concerns about unprecedented economic immigration from Eastern Europe This book presents the first comprehensive account of government policy on immigration over the last ten years providing an in depth analysis of policy and legislation since Tony Blair and New Labour were first elected The account begins by placing policy change under Labour in their proper historical context before examining the key policy themes economic migration security integration asylum delivery of the last decade Through an analysis of such

policy themes the author contends that immigration policy has undergone an intense and innovative transformation in the period from May 1997 to May 2007 Arguing that a more plural system of governance exists the author challenges traditional accounts of policy development By addressing the various influences on immigration policymaking from globalisation the European Union and the law to politics the media and the networks of special interests he seeks to provide a holistic explanation for the transformation of immigration policy The author concludes with an evaluation of Labour s immigration reforms and whether government policy can be judged a success The book will be of interest to policymakers academics students studying immigration and readers interested in serious current affairs Crime and Justice in the Netherlands Michael H. Tonry,Catrien C. J. H.
