Get the new educational standard under the Council of Social Work Education for human behavior and social environment studies. Critical thinking skills are an indispensable component of any educational program but especially the HBSE curriculum. The Conundrum of Human Behavior in the Social Environment shows ways to spark those needed skills while providing a comprehensive framework on the social environment impact and human behavior theory crucial for graduate and undergraduate courses. Macro, mezzo, and micro forces are examined in depth along with considerations for redesigning the content in HBSE curricula in accordance with current educational standards. Noted authorities detail evidence-based practices and present extensive referencing along with offering Web site listings and syllabi for coursework. The Conundrum of Human Behavior in the Social Environment presents theories of behavioral change that can be facilitated by practitioners to eliminate or modify undesirable behaviors as well as provides a framework useful for understanding how a macro system consisting of four societal forces: social justice, social problems, social policy, and the political economy works to influence a micro system of community, organizational, and group dynamics. Four types of HB and SE course outlines are presented and discussed with an eye toward strengthening foundation courses along with an analysis of fourteen frequently used Human Behavior and Social Environment textbooks based on the Council on Social Work Education's 2001 guidelines that also offers a framework for integrating content. The application of the transtheoretical model of behavioral change to the welfare-to-work transition with public housing residents is presented using both quantitative and qualitative data that has been closely analyzed. The Conundrum of Human Behavior in the Social Environment provides extensive references, clear and helpful figures and tables of data, numerous appendices of useful detailed outlines and descriptions of textbooks, lists of Web sites, a syllabi, and course sequence description for micro, macro, mezzo issues. The Conundrum of Human Behavior in the Social Environment is valuable reading for students, educators, social workers, health professionals, psychologists, sociologists, and other human services professionals interested in staying on top of the shifts of focus in human behavior and social environmental curriculums.

Contemporary Issues of Care Roberta R. Greene, 2012-11-12. Make sure your clients get the best possible care throughout their lives. Contemporary Issues of Care presents the latest research findings on human behavior and the social environment for social workers practicing at the individual, family, and community levels. This timely book applies the functional age model on intergenerational therapy (FAM) to examine the interaction between the care recipient's biopsychosocial and spiritual functioning and the capacity of the family caregiver to adapt. The book's contributors examine the functions of various social systems in caregiving as well as the social worker's role in processing and integrating information to help develop family-centered and community-based interventions. Contemporary Issues of Care focuses on

caregiving situations across the life span using research findings to shape social work curriculum and to improve social work practice and services With the family still the primary caregiving institution in the United States the book examines the mutual interdependence among family members and the dynamic development of family structure and organization An exemplary textbook for students in social work the book also includes a workbook and CD Topics addressed in Contemporary Issues of Care include shifts in human behavior paradigms family systems interventions case management sibling caregiving the impact of culture on mental illness and mental health the importance of self care elder abuse substance abuse children with cancer HIV AIDS diabetes posttraumatic stress inner city challenges caregiving for gay men and lesbians caregiving for persons with dementia community caregiving and much more Contemporary Issues of Care is filled with charts tables diagrams and sample interviews that supplement articles from the leading practitioners and academics in the field This book is an essential resource for anyone involved in social work practice for individuals families and communities
