The Humanities in Transition from Postmodernism into the Digital Age Nigel A. Raab,2020-05-31 The Humanities in Transition explores how the basic components of the digital age will have an impact on the most trusted theories of humanists Over the past two generations humanists have come to take basic postmodern theories for granted whether on language knowledge or time Yet Michel Foucault Jacques Derrida and similar philosophers developed their ideas when the impact of this digital world could barely be imagined The digital world built on algorithms and massive amounts of data operates on radically different principles This volume analyzes these differences demonstrating where an aging postmodernism cannot keep pace with today s technologies The book first introduces the major influence postmodern had on global thought before turning to algorithms digital space digital time data visuals and the concept to digital forgeries By taking a closer look at these themes it establishes a platform to create more robust humanist theories for the third millennium This book will appeal to graduate students and established scholars in the Digital Humanities who are looking for diverse and energetic theoretical approaches that can truly come to terms with the digital world

Essays at the End of the Age Jay Trott,2007-01-10 Essays at the End of the Age examines the rise and fall of nihilism in the context of the cycles of intellectual history and suggests ways to go beyond it The modern era began with Descartes and the attempt to use the cogito to obtain a clear understanding of transcendent being Unfortunately the cogito led to nothingness through its resistance to constructs of being Then Kant attempted to synthesize nothingness with being in the transcendental aesthetic with mixed results Finally Nietzsche used the power of nothingness itself or nihilism to negate any concept of being for the sake of the will to power But nihilism led to the same nothingness as the cogito did since nihilism too was based on resistance The limitations of the superman became evident through the art and culture that reflected his negative ideal of absolute resistance to the good and yet nihilism also indicates the end of philosophy and its attempt to describe transcendent value and the good of happiness The superman is dead and philosophy appears to be dead as well The question now is whether it is possible to go beyond nihilism and find the identity purpose and meaning that the human spirit craves Essays at the End of the Age uses illustrations from literature music science and sacred texts to show why the superman failed to obtain happiness and to point the way to a new mode of being **The Living Age** ,1918 Littell's Living Age ,1923 **The Insurance Age** ,1896 **Conundrum's Book** Michael Jenner,2008 Henri a young travel photographer with a big identity problem plays the sorcerer s apprentice to Conundrum a fiendishly clever wordsmith and rogue magus promising ultimate knowledge of a dangerous sort Their quest takes them on a journey of high adventure from Wales and London via Catalonia Rome Berlin Moscow Switzerland Paris Japan and Madeira to a dramatic finale on the rugged cliffs at the western extremity of the Algarve But the secret lurking at the end of Southend Pier might after all be the key to the Holy Grail that is the dark mystery of Conundrum s Book Or does the answer lie in the crazy jumble of Conundrum s seedy flat at 7 Moonbeam Mansions A unique blend of unpredictable action philosophical fireworks outrageous behaviour metaphysical speculation and some adult material of a rather unusual nature keeps the reader hooked right to the end **Railway Age Gazette** ,1911 **Essay on criticism, ed. with intr. and notes by A.S.
