Regulation and Supervision of the OTC Derivatives Market Ligia Catherine Arias-Barrera, 2018-05-11 The over the counter OTC derivatives market has captured the attention of regulators after the Global Financial Crisis due to the

risk it poses to financial stability Under the post crisis regulatory reform the concentration of business and risks among a few major players is changed by the concentration of a large portion of transactions in the new market infrastructures the Central Counterparties CCPs This book for the first time analyses the regulatory response of the United Kingdom and the United States the two largest centres of OTC derivatives transactions and highlights their shortcomings The book uses a normative risk based approach to regulation as a methodological lens to analyse the UK regime of CCPs in the OTC derivatives market It specifically focuses on prudential supervision and conduct of business rules governing OTC derivatives transactions and the move towards enhancing the use of central clearing The resulting analysis from a normative risk based approach suggests that the UK regime for CCPs does not fulfil what would be expected if a coherent risk based approach was taken Our comments on the Dodd Frank Act highlight that the incoherent adoption of risk based approach to regulation affects the effectiveness of the US regime for CCPs Such a regime does not follow the pace of events of innovation risk in particular the foreseeable changes FinTech will bring to the OTCDM and central clearing services The second inadequacy of the US regime concerns the dual regulatory structure of the CFTC and the SEC and the inadequate adoption of different and not well coordinated regulatory strategies We also analyse the cross border implications of the US regime for non US CCPs that provide clearing services to US market participants Finally we study the negative effects of the absence of a clearly defined resolution regime for CCPs

A Theoretical Discussion of Globalization Esther Kemmer, 2011-03-26 Seminar paper from the year 2009 in the subject Sociology Economy and Industry grade 7.0 Maastricht University language English abstract Globalization is a term so frequently used that one tends to assume that everyone knows what globalization stands for In one way this is true since everybody pictures something different when using the word globalization The aim of this

paper is to clarify the term globalization by discussing different authors Yet the paper does not aim at giving THE definition of globalization rather it is attempting to show the different ways globalization can and is to be seen Since there has been a massive amount of theoretical discussion of the term globalization one needs to narrow down the field Thus this paper is mainly going to focus on the cultural dimension of globalization with a small outlook to other fields Through the direct comparison of different authors certain shortcomings or advantages of their views might be easier noticed as it would be the case when studying the authors separate from each other At the same time certain similarities or build ups of theories can be detected as well Following authors have been discussed Anthony Giddens Roland Robertson Doreen Massey Arjun Appadurai Jan Nederveen Pieterse and Manuel Castells Key Thinkers on Space and Place Phil Hubbard, Rob Kitchin, Gill Valentine, 2004-05-25 A comprehensive guide to the latest work on space Each entry is a short interpretative essay outlining the contributions made by the key theorists **Media and Everyday Life in Modern Society** Shaun Moores, 2000 What position have television radio and other electronic media come to occupy in people s day to day lives and social relationships Shaun Moores offers answers to this and other questions drawing on a range of his investigations and reflections on media and everyday life in modern society Beverly Hills, 90210 E. Graham McKinley, 2011-06-07 In 1990 the fledgling Fox television network debuted its prime time soap opera Beverly Hills 90210 which was intended to appeal to viewers in their late teens and early twenties Before long not only did the network have a genuine hit with a large and devoted audience but the program had evolved into a cultural phenomenon as well becoming a lens through which its youthful viewers defined much of their own sense of themselves By an overwhelming majority the fans were female young women between eleven and twenty five whose experience of the program was addictive and intensely communal They met in small groups to watch the program discussing its plot and characters against the backdrops of their own ongoing lives Wondering what this talk accomplished and what role it played in the construction of young female viewers identities Graham McKinley found several groups who watched the program and questioned them about the program s significance Extracting generously from actual interviews McKinley s investigation has the urgency of a heart to heart conversation with rich anecdotal moments and revelations of self Language and Identity in Late Modernity Kerstin Lück, 2004 Social Theory and Philosophy for Information Systems John Mingers, 2004-07-30 As Information Systems matures as a discipline there is a gradual move away from pure statistics towards consideration of alternative approaches and philosophies This has not been incorporated into the literature of the field Until now Collecting major social theorists and philosophers into one volume Social Theory and Philosophy for Information Systems provides a historical and critical analysis of each that is both authoritative and firmly focused on practical relevance to IS The result is an insightful text for researchers academics and students that will provide an up to date starting point for those considering alternative approaches **The Unmasterable Past** Charles S. Graham McKinley, 1997-09 As remarkable for its intimate style as for its adroit use of theory Beverly Hills 90210 illustrates the way in which media both form and reflect cultural reality Nigeria's Struggle for Democracy and Good Governance Adigun A. Barmann, Harvey Hill, 2002 The Modernist controversy in the Roman Catholic Church at the turn of the nineteenth century was a complex mixture of intellectual argument and personal relationships Some of the individuals involved lost their faith while others deepened it This book is the result of a complex interplay of many scholars working together The essays examine the autobiographies of several important Modernists They focus on the historical elements in which the individuals and the Christian community were involved as well as provide normative evaluations of the Modernists as Christians and fallible human beings This careful and well documented scholarship sheds an unusually clear light on both the broad historical context and the individual protagonists On Gadamer Patricia Altenbernd Johnson, 2000 This brief text assists students in understanding Gadamer's philosophy and thinking so that they can more fully engage in useful intelligent class dialogue and improve their understanding of course content Part of the Wadsworth Philosophers Series which will eventually consist of approximately 100 titles each focusing on a single thinker from ancient times to the present ON GADAMER is written by a philosopher deeply versed in the philosophy of this key thinker Like other books in the series this concise book offers sufficient insight into the thinking of a notable philosopher better enabling students to engage in the reading and to discuss the material in class and on paper British Social Attitudes Roger Jowell, 1999 A discussion of British social attitudes It addresses topics such as citizenship young people and politics genetics housing social security local government industrial relations environment and transport religion and the third way
