San Francisco in Fiction David M. Fine,Paul Skenazy,1995 In the beginning there was the bay the land the forty three hills the coastline down to Monterey the strip of mountains the quiet valley behind the vast ocean the hidden faults And with the landscape came the stories as Paul Skenazy and David Fine note in their introduction to this new anthology of essays San Francisco is as much a place in the mind as on the map if the terrain set the stage for the stories the stories have helped remake our perceptions of the space These twelve essays explore the relationship between place and prose between San Francisco the city and San Francisco the territory of fiction From the Gold Rush times of Mark Twain and Bret Harte through the Prohibition Era of Dashiell Hammett to the Beat days of Jack Kerouac and the present works of writers like Maxine Hong Kingston Amy Tan and Arturo Islas San Francisco has been blessed with great writers who have given life to the land in their fiction These essays engage the history and geography ethnic gender and class conflicts and stylistic range of the fiction They demonstrate how authors as various as Jack London Gertrude Atherton Frank Norris William Saroyan James D Houston Joan Didion and Wallace Stegner have re created and revised our understanding of this region

The American West and Its Interpreters Richard W. Etulain,2023-05-01 Distinguished historian Richard W Etulain brings together a generous selection of essays from his sixty year career as a specialist on the US West in this essential volume Each essay provides an invaluable overview of the rise of western literary history and historiography including insightful evaluations of individual historians revealing summaries of regional literature and discussions of western stories yet to be told Together these writings furnish readers with useful considerations of important subjects about the American West All those interested in the American West and its interpreters will find these illuminative moments of literary history and historiography especially appealing

Novel History Mark C. Carnes,2004-03-05 Historical fiction is a contradiction in terms History is what happened fiction what did not Yet great novelists have often disregarded this logical difficulty taking up the tools of the historian to explore the shadowy recesses of the past Their labors have brought forth many literary treasures But how accurately do these masterpieces of the imagination reflect the past In Novel History twenty accomplished historians consider this question in relation to some of our most important historical novels Their essays are followed in most instances by a response from the novelist These dialogues illuminate one of the most fascinating and perplexing issues of our time the relation between the real past and our finest imaginative renderings of it Novel History includes essays by distinguished historians such as John Demos Michael Kammen

Joan D Hedrick John Lukacs Eugene D Genovese Richard White and Tom Wicker and responses from notable novelists including Gore Vidal John Updike Russell Banks Don DeLillo Larry McMurtry Jane Smiley Madison Smartt Bell William Styron T Coraghessan Boyle William Kennedy Charles Frazier Thomas Fleming and Tim O'Brien Novel History is both a uniquely compelling perspective and a superb collection of literary history **Western American Literature** ,2009

Utah Historians and the Reconstruction of Western History Gary Topping,2003 Among historians of Utah and the American West few names have greater resonance than Bernard DeVoto Dale Morgan Juanita Brooks Wallace Stegner and Fawn Brodie Each of these writers made enduring contributions not only to our knowledge of the American West but also to our view of the region and its history In many ways their writing set the standard for scholarship and interpretation and their influence is still felt today Yet they were not flawless As Gary Topping explains in this the first comprehensive appraisal of their work each had serious shortcomings DeVoto and Stegner master storytellers distorted their histories with excessive use of literary and artistic techniques Morgan the thorough researcher failed to see larger contexts and interpretive possibilities Brooks courageous in finding damning new information on the Mountain Meadows massacre stopped short of drawing conclusions that might alienate her from her fellow Mormons and Brodie psychobiographer extraordinaire nonetheless succumbed to reading too much into the lives of her subjects based on her own emotions and conflicts All five writers experienced Mormon Utah in the formative stages of their lives and whether they wanted to or not fashioned their work on the American West under that indelible influence Topping shows ultimately how despite weaknesses each created exemplary models of diligent research and narrative elegance while establishing new traditions in western historical scholarship **A**

Bibliographical Guide to the Study of Western American Literature Richard W. Etulain,Nancy Jill Howard,1995 The revised and updated edition of this standard reference work in the field of Western American Literature now contains over 6 000 bibliographic references The topical listings have been expanded to encompass feminist and environmental studies Rather than attempting to be exhaustive the editors have chosen the major interpretive works making the volume useful to both specialists working outside their area and nonspecialists seeking an overview Broad in its scope the guide also focuses on a number of special topics local color and regionalism popular western literature western film Indian literature and Indians in western literature the environment women and families the Beats and Canadian western literature Logically and helpfully organized the volume will be invaluable to scholars researchers students and general readers **Many Wests** David M. Wrobel,Michael C. Steiner,1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them

Wrobel and Steiner first offer a compelling overview of the West's regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West's different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions
