Cooking With Verjuice:

Cooking with Verjuice Maggie Beer, 2001 Verjuice literally green juice originally referred to the juice extracted from crab apples and was in constant use in British cooking from medieval times up the 20th century when it was largely replaced by a squeeze of lemon juice In France it was the juice from unripe grapes and was a staple of French provincial cooking

Maggie's Verjuice Cookbook Maggie Beer, 2012 I just can't help myself when it comes to verjuice I use it in place of lemon juice or vinegar to bring the gentlest lift of flavour to everything from grilled vegetables meat or fish pastas risottos salads and hearty one pot dishes to delicate custards old fashioned puddings and decadent tarts I can't imagine cooking without it Maggie Beer

Kitchens, Cooking, and Eating in Medieval Italy Katherine A. McIver, 2017-10-16 The modern twenty first century kitchen has an array of time saving equipment for preparing a meal a state of the art stove and refrigerator a microwave oven a food processor a blender and a variety of topnotch pots pans and utensils We take so much for granted as we prepare the modern meal not just in terms of equipment but also the ingredients without needing to worry about availability or seasonality We cook with gas or electricity at the turn of the switch we have instant heat But it wasn't always so Just step back a few centuries to say the 1300s and we'd find quite a different kitchen if there was one at all We might only have a fireplace in the main living space of a small cottage If we were lucky enough to have a kitchen the majority of the cooking would be done over an open hearth we'd build a fire of wood or coal and move a cauldron over the fire to prepare a stew or soup A drink might be heated or kept warm in a long handled saucepan set on its own trivet beside the fire Food could be fried in a pan grilled on a gridiron or turned on a spit We might put together a small improvised oven for baking Regulating the heat of the open flame was a demanding task Cooking on an open hearth was an all embracing way of life and most upscale kitchens had more than one fireplace with chimneys for ventilation One fireplace was kept burning at a low steady heat at all times for simmering or boiling water and the others used for grilling on a spit over glowing radiant embers This is quite a different situation than in our modern era unless we were out camping and cooking over an open fire In this book Katherine McIver explores the medieval kitchen from its location and layout like Francesco Datini of Prato two kitchens to its equipment the hearth the fuels vessels and implements and how they were used to who did the cooking man or woman and who helped We'll look at the variety of ingredients spices herbs meats fruits vegetables food preservation and production salted fish cured meats cheese making and look through recipes cookbooks and gastronomic texts to complete the picture of cooking in the medieval kitchen Along the way she looks at illustrations like the miniatures from the Tacuinum Sanitatis a medieval health handbook as well as paintings and engravings to give us an idea of the workings of a medieval kitchen including hearth cooking the equipment used how cheese was made harvesting ingredients among other things She explores medieval cookbooks such works as Anonimo Veneziano Libro per cuoco fourteenth century Anonimo Toscano Libro della cucina fourteenth century Anonimo Napoletano end of thirteenth early fourteenth century Liber de coquina Anonimo
