John Robson,2009-07-16 Why was James Cook chosen to lead the Endeavour expedition to the Pacific in 1768 As this new book shows by that date he had become supremely and uniquely qualified for the exacting tasks of exploration This was a period when who you were and who you knew counted for more than ability but Cook through his own skills and application rose up through the ranks of the Navy to become a remarkable seaman to whom men of influence took notice Generals such as Wolfe and politicians like Lord Egmont took his advice and recognised his qualities During this period Cook added surveying astronomical and cartographic skills to those of seamanship and navigation He was in the thick of the action at the siege of Quebec during the Seven Years War was the master of 400 men and learned at first hand the need for healthy crews By 1768 Cook was supremely qualified to captain Endeavour and a reader might ask why would you choose anyone else but Cook to lead such a voyage Highly readable and displaying much new research this is an important new book for Cook scholars and armchair explorers alike
