behavioral patterns of the people in the school will be governed by each model and what will be the relative extent to which each model influences the nature of the relationships and educational processes in the school Restructured schools emphasize the systems and communal models in their organizational and instructional norms with bureaucratic norms mainly governing routine administrative procedures while in traditional schools the bureaucratic model yields decisive influence on curricular structure classroom teaching models and staff relations as well as on administrative features of the school This book spells out a systems and communal approach to organization curriculum and instruction It describes how to adopt an investigative approach to learning often with cooperative groups of students coupled with a trans disciplinary approach to curricular structure and with a restructured schedule of classes to allow for in depth study of broad intellectual domains

The Principal as Curriculum Leader Allan A. Glatthorn, 2000-09-12 Written specifically for school principals this book is derived from several tested beliefs 1 there is no single right way to do curriculum 2 developing and implementing effective curricula are cooperative ventures in which district leaders school administrators and classroom teachers work toward a common goal and 3 the principal must play an active leadership role in developing curriculum The Second Edition of *The Principal as Curriculum Leader* has been updated to reflect current research and developments related to curriculum and its implementation An Investigation of Block Scheduling in High School String Ensembles Kathlene J.
