## **Destroyers At War:**

**Destroyer!** M. J. Whitley, 1983 *United States Destroyer Operations in World War II.* Theodore Roscoe, 1953 In this colorful operational history of the U S Navy s destroyers and destroyer escorts in World War II Theodore Roscoe pays tribute to the workhorses of the fleet that served in every theater of the war As submarine hunters convoy escorts troop transports radar pickets rescue vessels blockade runners bombardment ships and much more these remarkably versatile ships and the crews who manned them took part in more operations than any other type of ship in the U S Navy This is their story of the war Front jacket flap [Tin Can Titans](#) John Wukovits, 2017-03-14 An epic narrative of World War II naval action that brings to life the sailors and exploits of the war s most decorated destroyer squadron When Admiral William Halsey selected Destroyer Squadron 21 Desron 21 to lead his victorious ships into Tokyo Bay to accept the Japanese surrender it was the most battle hardened US naval squadron of the war But it was not the squadron of ships that had accumulated such an inspiring resume it was the people serving aboard them Sailors not metallic superstructures and hulls had won the battles and become the stuff of legend Men like Commander Donald MacDonald skipper of the USS O Bannon who became the most decorated naval officer of the Pacific war Lieutenant Hugh Barr Miller who survived his ship s sinking and waged a one man battle against the enemy while stranded on a Japanese occupied island and Doctor Dow Doc Ransom the beloved physician of the USS La Vallette who combined a mixture of humor and medical expertise to treat his patients at sea epitomize the sacrifices made by all the men and women of World War II Through diaries personal interviews with survivors and letters written to and by the crews during the war preeminent historian of the Pacific theater John Wukovits brings to life the human story of the squadron that bested the Japanese in the Pacific and helped take the war to Tokyo **US Destroyers 1942-45** Dave McComb, 2011-03-15 Few if any 20th century warships were more justly acclaimed than the destroyers of the U S Navy s Fletcher class Admired as they were for their advanced and rakish design it was their record as workhorses of the Pacific War that placed them among the most battle tested and successful fighting ships of all time This title describes the Fletchers and their Allen M Sumner and Gearing class derivatives their machinery armament and construction with a listing of all 343 ships by hull number and builder It features an operational history of the 287 ships commissioned during World War II which traces the evolution of night surface action tactics in the Solomon Islands and the parallel development of the Combat Information Center the drive across the Pacific and liberation of the Philippines with tables showing the rapid introduction of new squadrons and the radar pickets climactic stand against kamikaze aircraft at Okinawa With summaries of losses and decorations and specially commissioned artwork this is a definitive book on the wartime US destroyer classes **United States Navy Destroyers** Michael Green, 2020-10-30 This classic Images of War book traces the key role played by destroyers of the United States Navy since the first order for 16 in 1898 Prior to the USA s entry into the First World War a further 63 destroyers were commissioned and due to the U boat threat 267 more were authorised by Congress once hostilities were

joined Between 1932 and Pearl Harbor ten new classes totalling 169 destroyers came into service During the war years American shipyards turned out a further 334 vessels Of the three classes the 175 Fletcher class were judged the most successful The Cold War years saw the development of seven more classes More recently 82 of the stealth shaped Arleigh Burke class have been ordered but the futuristic Zumwalt class programme has been curtailed for cost reasons Expert author Michael Green is to be commended for compiling this comprehensive account of the USN s impressive destroyer programme with its authoritative text and superb images Imperial Japanese Navy Destroyers 1919-45 (1) Mark Stille,2013-03-20 A detailed illustrated look at the earliest seven classes of destroyer fielded by the Imperial Japanese Navy of World War II Several classes of Japanese destroyer were built before the war This includes the famous Fubuki class called Special Type by the Japanese which were when completed in the late 1920 s the most powerful class of destroyers in the world This design forced all other major navies to follow suite and provided the basic design for the next many classes of Imperial Navy destroyers This book also examines the three classes built before the Special Type which were based on a German World War I design as well as two classes built afterward Pacific War expert Mark Stille evaluates the success of these designs from the first battles of the Pacific War up until the death sortie of the superbattleship Yamato and compares them to similar Allied destroyer designs *Aboard the Farragut Class Destroyers in World War II* Leo Block,2009-06-08 This book describes the life of the enlisted men aboard a Farragut class destroyer during the pre World War II years the war preparation period in 1941 and the wartime years It features first person narrations collected from interviews and correspondence with the few remaining Farragut class destroyer sailors and briefly describes the evolution of the destroyer and the Farragut class destroyers five of which survived the war **United States Navy Destroyers of World War II** John C. Reilly,1983

**How America Went to War; an Account from Official Sources of the National War Activities, 1917-1920** Benedict Crowell,1921 U.S.S. Seattle During the War ,1919 **World's War Events: Beginning with the departure of the first American destroyers for service abroad in April, 1917, and closing with the treaties of peace in 1919** Francis Joseph Reynolds,Allen Leon Churchill,1919 Italian Destroyers of World War II Mark Stille,2021-03-18 A new illustrated history and analysis of Italy s World War II destroyers a formidable foe for Allied forces attempting to attack the sea lanes between Italy and North Africa The Italian Royal Navy Regia Marine or RM began the Second World War with one of the largest fleets in the world Included in it was a total of 59 fleet destroyers with others added during the war These were a diverse collection of ships dating back to the First World War with large destroyers built to counter ships of similar size introduced in the French Navy the RM s historical enemy and medium sized ships which constituted the bulk of the destroyer force RM destroyers were built for high speed not endurance since they were only expected to operate inside the Mediterranean They were also well armed but lacked radar During the war RM destroyers fought well With the exception of a small force based in Abyssinia which fought a series of battles in the Red Sea against the British RM destroyers were active

in the Mediterranean The primary mission of the RM during the war was to keep the supply lines to North Africa open The Italians were largely successful in this effort and destroyers were key RM destroyers were present at every fleet action with the British Mediterranean Fleet The intensity of these actions is reflected by the fact that the RM lost 51 destroyers during the war

**Endless Story** James Goldrick,2016-06-30 Although it was first published in 1931 Endless Story remains the only comprehensive account of the services of the Navys small craft destroyers torpedo boats and patrol vessels during the First World War and moreover the only one written by an officer personally involved Even if Dorling did not take part in all the actions he describes he knew the men who did and gleaned much of his information from personal contact As a result the book has both authenticity and authority but is composed with the all verve of the popular novelist that Taffrail was to become It was a bestseller in its day and now enjoys the status of a classic

Blood On The Sea Robert Sinclair Parkin,1996 First time in paperback A unique portrait of American military action through the stories of the seventy one U S destroyers sunk in World War II

**British Destroyers** Norman Friedman,2009 In the late nineteenth century the advent of the modern torpedo woke the Royal Navy to a potent threat to its domination not seriously challenged since Trafalgar For the first time a relatively cheap weapon had the potential to sink the largest and costliest exponents of sea power Not surprisingly Britain s traditional rivals invested heavily in the new technology that promised to overthrow the naval status quo The Royal Navy was also quick to adopt the new weapon but the British concentrated on developing counters to the essentially offensive tactics associated with torpedo carrying small craft From these efforts came torpedo catchers torpedo gunboats and eventually the torpedo boat destroyer a type so successful that it eclipsed and usurped the torpedo boat itself With its title shortened to destroyer the type evolved rapidly and was soon in service in many navies but in none was the evolution as rapid or as radical as in the Royal Navy This book is the first detailed study of their early days combining technical history with an appreciation of the changing role of destroyers and the tactics of their deployment Like all of Friedman s books it reveals the rationale and not just the process of important technological developments

AUTHOR Norman Friedman is arguably America s most prominent naval analyst and the author of more than twenty books covering a range of naval subjects from warship histories to contemporary defence issues His latest book Firepower covering battleship gunnery and fire control was highly praised
