**Democracy and Elections in Africa** Staffan I. Lindberg,2006-09-11 Publisher Description *The Role of Civil Society in Africa's Quest for Democratization* Abadir M. Ibrahim,2016-12-08 This book tests many of the assumptions hypotheses and conclusions connected with the presumed role of civil society organizations in the democratization of African countries Taking a comparative approach it looks at countries that have successfully democratized those that are stuck between progress and regression those that have regressed into dictatorship and those that are currently in transitional flux and evaluates what role if any civil society has played in each instance The countries discussed South Africa Ghana Nigeria Ethiopia Egypt and Tunisia represent a diverse set of social and political circumstances and different levels of democratic achievement providing a rich set of case studies Each sample state also offers an internal comparison as each has historically experienced different stages of democratization Along the course of each case study the book also considers the effect that other traditionally studied factors such as culture colonization economic development and foreign aid may have had on individual attempts at democratization The first extensive work on civil society and democratization in Africa the book adds new insights to the applicability of democratization theory in a non Western context both filling a gap in and adding to the existing universal scholarship This book will be useful for scholars of political science economics sociology and African studies as well as human rights activists and policy makers in the relevant geographical areas Political Mobilizations and Democratization in Sub-Saharan Africa Wolfgang Stuppert,2019-06-14 This book explores why democratization processes in Sub Saharan Africa have made so little progress despite more than two decades of multi party politics on the subcontinent By applying multiple linear regression analyses to a new data set on multi party elections in Sub Saharan Africa the study investigates the relationship between political mobilizations and electoral competitiveness It finds that the more societal groups engage in political mobilizations such as protests and strikes the more competitive elections become Based on these results the author argues for a change in the policies of international democracy assistance programs The study's findings suggest that efforts to promote democracy would likely be more successful if international donors focused their support on organizations that have active constituencies and are willing to use their mobilization capacity to address ruling elites with political or socio economic grievances **Ethnic Conflict and Democratization in Africa** Harvey Glickman,1995 III 484P 23CM **Democracy & Development** ,2004 **African Studies Review** ,2002 Democracy, Democratization, and Africa Lloyd A. Thompson,1994 **Democratization in Africa** Larry Diamond,Marc F. Plattner,2010-03-29 Weiss Christopher Wyrod Daniel J Young *State Building and Democratization in Africa* Kidane Mengisteab,Cyril K.

Daddieh,1999-01-30 State building and democratization in Africa rarely attract the attention they deserve Few have grappled with the relationship between state building nation building and democratic experiments in Africa This collection consciously corrects this shortcoming in African political studies Among the issues raised Does democracy facilitate state building or does it exacerbate ethnic conflicts Are certain modalities of democratization more likely to facilitate state building than others Has the era of democracy created the need for new state building strategies Does the objective of state building require significant modifications in the essence and form of democracy This collection combines theoretical explorations with empirical case studies It looks at both anglophone and francophone countries of sub Saharan Africa While the contributors have written extensively on African issues there is no consensus among the authors most argue that integrating ethnic groups that already face discrimination and often are engaged in conflict requires compromise political settlements and new terms of incorporation into the state These compromises in turn involve new arrangements in how democracy is perceived and instituted An important collection for scholars students and other researchers involved with African political social and economic development

*Democracy and Democratization in Africa* E. Ike Udogu,1997 This book contains a collection of essays that address some of the fundamental political and economic issues confronting the African continent as it marches toward the next millennium The authors are African scholars teaching at various universities and colleges in the United States and Republic of South Africa As Africanists they examined their topics critically and with great sensitivity In a number of cases they offered pertinent solutions to some of the intractable political and economic problems confronting many of the countries in the area aiming to assist lawmakers in their attempts to formulate policies that are germane to the continent
