Deterrence By Diplomacy

Anne E. Sartori

Deterrence By Diplomacy:

Deterrence by Diplomacy Anne E. Sartori, 2005 Anne Sartori argues that diplomacy works precisely because it is so valuable States take pains to use diplomacy honestly most of the time because doing so allows them to maintain reputations for honesty which in turn enhance their ability to resolve future disputes using diplomacy rather than force So to maintain the effectiveness of their diplomacy states sometimes acquiesce to others demands when they might have been able to attain their goals through bluffs Sartori theorizes that countries obtain a trade of issues over time they get their way more often when they deem the issues more important and concede more often when they deem the issues less important Nuclear Deterrence and Diplomacy Jasjit Singh, Manpreet Sethi, 2004 Deterrence has been part of human conflict and its prevention for centuries But nuclear weapons gave it a unique if apocalyptic dimension of deterrence through mutually assured destruction aptly called MAD Thus while deterrence was pursued through the threat of causing grievous hurt vying with annihilation diplomacy sought to construct a framework where the powerful sought to retain their advantage while pressing for reducing that of the adversary or completely denying it to others And this came to be termed non proliferation keeping its vertical dimension outside any questioning Meanwhile nuclear deterrence has been undergoing changes due to the increasing vulnerability of states and society in a globalising and increasingly interdependent world Recognising the fundamentally political nature of the role of nuclear weapons China and India evolved an approach to nuclear deterrence quite different from that adopted by others And they seem to have succeeded equally well so far with unquestionably lower costs and risks **Deterrence and Defense** Glenn Herald Snyder, 2015-12-08 The description for this book Deterrence and Defense will be forthcoming **The United States and Coercive Diplomacy** Robert J. Art, Patrick M. Cronin, 2003 As Robert Art makes clear in a groundbreaking conclusion those results have been mixed at best Art dissects the uneven performance of coercive diplomacy and explains why it has sometimes worked and why it has more often failed BOOK JACKET *The Politics of Nuclear Weapons in South Asia* Bhumitra Chakma, 2016-02-24 An important and critical re evaluation of South Asia s post tests nuclear politics in contrast to other books this volume emphasises the political dimension of South Asia s nuclear weapons explains how the bombs are used as politico strategic assets rather than pure battlefield weapons and how India and Pakistan utilise them for politico strategic purposes in an extremely complex and competitive South Asian strategic landscape Written by a group of perceptive observers of South Asia this volume evaluates the current state of Indo Pakistani nuclear deterrents the challenges that the two countries confront in building their nuclear forces the post test nuclear doctrines of the two strategic rivals the implications of Indo Pakistani politics for regional cooperation the role of two systemic actors USA and China in the region s nuclear politics and the critical issues of confidence building and nuclear arms control **The Politics of Nuclear Weapons in South Asia** Dr Bhumitra Chakma, 2013-04-28 An important and critical re evaluation of South Asia s post tests nuclear politics in contrast to other

books this volume emphasises the political dimension of South Asia's nuclear weapons explains how the bombs are used as politico strategic assets rather than pure battlefield weapons and how India and Pakistan utilise them for politico strategic purposes in an extremely complex and competitive South Asian strategic landscape Written by a group of perceptive observers of South Asia this volume evaluates the current state of Indo Pakistani nuclear deterrents the challenges that the two countries confront in building their nuclear forces the post test nuclear doctrines of the two strategic rivals the implications of Indo Pakistani politics for regional cooperation the role of two systemic actors USA and China in the region's nuclear politics and the critical issues of confidence building and nuclear arms control *Diplomacy and Deterrence* Zia Ul Haque Shamsi, 2024 The 21st century is no different than any of the previous periods as regards wars and conflicts With only two decades down the lane several regions have seen wars of different character limited and all out conventional wars sub conventional wars blockades externally sponsored internal revolts and threats of nuclear posturing The situation is alarming and calls for a serious review of the prevalent international order because the present international system under the cloud of realism has failed to avert wars and conflicts between the rival states This book argues that wars and conflicts become inevitable between the arch rivals with protracted conflicts if both diplomacy and deterrence fail to achieve their objectives Furthermore it explores the essential linkages between diplomacy and deterrence as essential tools to avert future wars particularly between Unequal Military Powers UMPs **South Asia's Nuclear Security** Bhumitra Chakma, 2014-12-17 South Asia is often viewed as a potential nuclear flashpoint and a probable source of nuclear terrorism But how valid are such perceptions This book seeks to address this question and assesses the region's nuclear security from two principal standpoints First it evaluates the robustness of the Indo Pakistani mutual deterrence by analysing the strength and weaknesses of the competing arguments regarding the issue It also analyses the causes and consequences of nuclear arms race between India and Pakistan the nature of deterrence structure in the region and the challenges of confidence building and arms control between the two countries in order to assess the robustness of South Asia's nuclear deterrence Second it assesses the safety and security of the nuclear assets and nuclear infrastructure of India and Pakistan The author holds that the debate on South Asia's nuclear security is largely misplaced because the optimists tend to overemphasise the stabilising effects of nuclear weapons and the pessimists are too alarmists It is argued that while the risks of nuclear weapons are significant it is unlikely that India and Pakistan will give up their nuclear arsenals in the foreseeable future Therefore what needs to happen is that while nuclear elimination should be the long term goal in the interim years the two countries need to pursue minimum deterrence policies to reduce the likelihood of deterrence failure and the possibility of obtaining fissile materials by non state actors *Nuclear Weapons and Coercive Diplomacy* Todd S. Sechser, Matthew Fuhrmann, 2017-02-02 Are nuclear weapons useful for coercive diplomacy This book argues that they are useful for deterrence but not for offensive purposes *Diplomacy* Paul Gordon Lauren, 1979 *Annals of the American Academy of Political and Social Science*
