Detoxification And Body Cleansing:

Body Detox Katarina Horak,2012-06-22 Do you wake up each morning full of vitality and energy with a feeling of ease at the beginning of a new day If this sounds unfamiliar your body may be harboring toxins Toxins pervade the environment They are in the food you eat in the water you drink in the air you breathe among many other sources Increased toxin levels are due to pollution of the environment chemical detergents in households and artificial additives in the food supply The human body is not capable of breaking down or expelling toxins without proper care As a result the number of people suffering from allergies or hypersensitivity to various substances is rising Besides the harmful effects to the body the mind can suffer too A fast paced society causes an increase in tension stress and mental exhaustion All this leads to a state of well being that is greatly lacking in the vitality it could have under optimal conditions Unhealthy eating habits only contribute to the situation When one overeats or chooses a bad combination of foods part of the food remains undigested This triggers putrefactive decomposition in the intestines accompanied by the production of toxins the poisonous substances which can be the originators of diseases To lose the extra pounds dieters often try to starve themselves with a regimen that is unbalanced and poor in nutrition These bodily abuses cause premature aging and a lack of energy and zest for life Surely everyone wants a high quality of life regardless of age and gender But can you make this a reality Just imagine if for the most part you were able to control your own state of being Few people realize how important healthy eating coupled with regular detoxification cleansing of the body really is Most have never tried to rid their bodies of accumulated poisons parasites and waste In fact it has been scientifically proven that the large intestine of an adult contains from three to five and in some cases up to 22 pounds of unmetabolized food sediment Is this because we are not ready to take responsibility for our best possible health The purpose of this book is to advise those who want to secure their health It will guide you on how to heal your body cleanse it of sediments mucus poisons parasites and excess weight naturally without any harm or stress One's quality of physical and mental activity not only depends on how regularly one cares for the outside of his or her body but also for the inside
