Detroit's Cold War Colleen Doody, 2012-12-17

Detroit's Cold War locates the roots of American conservatism in a city that was a nexus of labor and industry in postwar America Drawing on meticulous archival research focusing on Detroit Colleen Doody shows how conflict over business values and opposition to labor anticommunism racial animosity and religion led to the development of a conservative ethos in the aftermath of World War II Using Detroit with its large population of African American and Catholic immigrant workers strong union presence and starkly segregated urban landscape as a case study Doody articulates a nuanced understanding of anticommunism during the Red Scare Looking beyond national politics she focuses on key debates occurring at the local level among a wide variety of common citizens In examining this city's social and political fabric Doody illustrates that domestic anticommunism was a cohesive multifaceted ideology that arose less from Soviet ideological incursion than from tensions within the American public

A Great Sacrifice James G. Mendez, 2019-02-05

Offers readers new insight into the lives of African American men and women from the North in the era of the Civil War

Liz Regosin Charles A Dana Professor of History St Lawrence University

A Great Sacrifice is an in depth analysis of the effects of the Civil War on northern black families carried out using letters from northern black women mothers wives sisters and female family friends addressed to a number of Union military officials Collectively the letters give a voice to the black family members left on the northern homefront Through their explanations and requests readers obtain a greater apprehension of the struggles African American families faced during the war and their conditions as the war progressed The original letters that were received by government agencies as well as many of the copies of the letters sent in response are held by the National Archives in Washington D C This study is unique because it examines the effects of the war specifically on northern black families Most other studies on African Americans during the Civil War focused almost exclusively on the soldiers In this deeply researched and revealing book James G Mendez seeks to recover the experience of northern black soldiers and their families during the Civil War era in order to discover the ways they engaged the governments of their day both to recognize and respect their service and sacrifice during the war and to count the costs northern blacks paid out in impoverished families wartime casualties and unfulfilled promises Mendez's book deserves our attention and appreciation
