LeTendre**

Developing The Teacher Workforce:

Developing the Teacher Workforce Mark A. Smylie, Debra Miretzky, 2004 This volume offers a systematic perspective on teacher workforce development drawing on views that reflect local direct and national concerns about issues such as diversity in the workforce recruitment and retention of teachers effective professional development and compensation and the effect of these workforce initiatives on teacher quality and student achievement The authors argue that current ways of thinking are inadequate for the nature of the work and future demands because of the neglect of the context the lack of understanding of teacher career stages and disregard of the ripple effect of educational policy A coherent cohesive approach must replace the fragmented and autonomous efforts that predominate today The volume s authors demonstrate that until a more seamless and comprehensive human resource system is employed widespread improvements in teacher quality are unlikely and the quality of learning will itself remain compromised *Changing Expectations for the K-12 Teacher Workforce* National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Science Education, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Understanding the Changing Structure of the K-12 Teacher Workforce, 2020-06-10 Teachers play a critical role in the success of their students both academically and in regard to long term outcomes such as higher education participation and economic attainment Expectations for teachers are increasing due to changing learning standards and a rapidly diversifying student population At the same time there are perceptions that the teaching workforce may be shifting toward a younger and less experienced demographic These actual and perceived changes raise important questions about the ways teacher education may need to evolve in order to ensure that educators are able to meet the needs of students and provide them with classroom experiences that will put them on the path to future success *Changing Expectations for the K 12 Teacher Workforce* Policies Preservice Education Professional Development and the Workplace explores the impact of the changing landscape of K 12 education and the potential for expansion of effective models programs and practices for teacher education This report explores factors that contribute to understanding the current teacher workforce changing expectations for teaching and learning trends and developments in the teacher labor market preservice teacher education and opportunities for learning in the workplace and in service professional development *Education and Training Policy Teachers Matter Attracting, Developing and Retaining Effective Teachers* OECD, 2005-06-08 Teachers Matter provides a comprehensive international analysis of trends and developments in the teacher workforce in 25 countries around the world including research on attracting developing and retaining effective teachers *Education and Training Policy Teachers Matter* Phillip McKenzie, Paulo Santiago, Organisation for Economic Co-operation and Development, 2005-06-28 Good teachers are the backbone of any education system That s why governments are constantly seeking teacher policies that will help them recruit and retain the best Most countries are concerned with an ageing teaching workforce and attracting new recruits coupled

with the demands of more diverse student populations higher expectations and new responsibilities To be effective teacher policy must address these issues Teachers Matter provides a comprehensive international analysis of trends and developments in the teacher workforce in 25 countries around the world research on attracting developing and retaining effective teachers innovative and successful policies and practices that countries have implemented and teacher policy options for countries to consider While documenting many areas of concern about teachers and teaching the report also provides positive examples of where policies are making a difference It spotlights countries where teachers social standing is high and where there are more qualified applicants than vacant posts Even in countries where shortages have been a concern there are recent signs of increased interest in teaching and policy initiatives appear to be taking effect *Changing Expectations for the K-12 Teacher Workforce* Committee on Understanding the Changing Structure of the K-12 Teacher Workforce, 2020 Teachers play a critical role in the success of their students both academically and in regard to long term outcomes such as higher education participation and economic attainment Expectations for teachers are increasing due to changing learning standards and a rapidly diversifying student population At the same time there are perceptions that the teaching workforce may be shifting toward a younger and less experienced demographic These actual and perceived changes raise important questions about the ways teacher education may need to evolve in order to ensure that educators are able to meet the needs of students and provide them with classroom experiences that will put them on the path to future success the National Academies of Sciences Engineering Medicine online ebook description viewed July 21 2020 *Developing the*

Teacher Workforce Mark A. Smylie (ed), 2004 **Innovations in Teaching and Learning: International Approaches in Developing Teacher Education and Curriculum for The Future** Marco Ferreira, Lawrence Meda, Markus Talvio, 2024-04-16 During the last few years teachers across cultures have faced a lot of unprecedented demands in developing their methods in instruction Population mobility unstable labour market and globalisation change society around us rapidly In addition education per se is constantly changing and redefining and modifying learning and teaching environments are an ongoing process For example modern educational psychology including positive psychology movements emphasizing collaborative knowledge creation calls teachers to facilitate their students learning and wellbeing and to create a positive learning environment instead of using traditional frontal teaching and other teacher centered methods Digital revolution has challenged teachers to adapt new educational settings and to update their pedagogical approaches into more use of digital solutions Indeed the COVID 19 pandemic propelled the teachers to offer new optimal learning experiences

Getting the Right Teachers Into the Right Schools Vimala Ramachandran, Tara Bêteille, Toby Linden, Sangeeta Goyal, 2017-04-24 India's landmark Right of Children to Free and Compulsory Education Act 2009 guarantees education to all children aged 6-14 years The Act mandates specific student teacher ratios and emphasizes teacher quality Writing this into legislation took seven years but the seven years since has proven that ensuring effective teachers are recruited and placed in

all schools in a time bound manner is considerably more challenging This report takes a detailed look at the complexity of the teacher management landscape in elementary and secondary schools in nine Indian states On a daily basis the administrative machinery of these states has to manage between 19 000 to nearly a million teachers in different types of schools and employment contracts and cope with recruiting thousands more and distributing them equitably across schools This report examines the following issues official requirements for becoming a schoolteacher in India policies and processes for teacher recruitment deployment and transfers salaries and benefits of teachers professional growth of teachers and grievance redressal mechanisms for teachers For the first time in India this report compares and contrasts stated policy with actual practice in teacher management in the country using a combination of primary and secondary data In so doing the report reveals the hidden challenges and the nature of problems faced by administrators in attempting to build an effective teacher workforce which serves the needs of all of India s 200 million school children The report examines states with varying characteristics thus generating knowledge and evidence likely to be of interest to policy makers and practitioners in a wide range of contexts Developing and Maintaining a High-quality Teacher Force United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Postsecondary Education, Training, and Life-long Learning,1999

Developing Teachers' Assessment Literacy Kim Koh,Cecille DePass,Sean Steel,2019-07-29 Since the turn of the 21st century developing teachers assessment literacy has been recognized as one of the key levers for improving instructional practice and student learning in light of the education reforms worldwide A substantial body of literature is focused on teachers assessment literacy or teachers capacity in assessment and teachers continuing professional development in assessment As we approach the third decade of the 21st century developing teachers assessment literacy needs to be more responsive to the need of both preservice and inservice teachers who come from linguistically and culturally diverse backgrounds The authors concur that both preservice and inservice teachers in today s complex educational contexts require a deeper level of understanding of assessment Additionally teachers are highly encouraged to appreciate the history of educational assessment in different sociocultural and political contexts as well as to know how to determine the merits of a range of assessment practices best suited for their lesson planning and classroom teaching In this book the authors discuss significant aspects of developing teachers assessment literacy in different sociocultural and political contexts Based on their respective educational backgrounds academic experiences and applied fields of study each of the authors presents a critical response to the topic of assessment Their accounts represent the complexity of the subject through a breadth and range of content and perspectives By expanding the terms of reference regarding assessment the authors have developed a book with a far richer panorama on assessment as a springboard for inquiry Promoting and Sustaining a Quality Teacher Workforce Alexander W. Wiseman,Gerald K. LeTendre,2015-10-27 The volume considers teacher professionalization by examining how to create pipelines from secondary education into teaching preparing teacher educators creating linkages between providers

of teacher education and the schools **Professional Support Beyond Initial Teacher Education** Anna Elizabeth Du Plessis, 2019-08-26 This book investigates the professional learning needs of teachers beyond initial teacher education focusing on teachers in complex teaching positions such as out of field teaching practices The information presented here will help to improve professional learning strategies while also offering an in depth understanding of teachers needs leaders perceptions and what complex teaching situations mean for teachers professional learning and development Further Du Plessis shares the perceptions and lived experiences of teachers parents leaders and students as key stakeholders in quality teaching and learning environments In light of new evidence informed findings on the out of field phenomenon and continuing professional learning Du Plessis puts forward strategies that will enhance the effectiveness of professional learning and development programs while also fostering improved decision making and policy development In brief Du Plessis focuses on the impact that complex teaching situations have on teachers unique needs the support that is provided and the influence of the out of field phenomenon on teachers responses to continuing professional learning and development programs **Teacher Selection: Evidence-Based Practices** Robert M. Klassen, Lisa E. Kim, 2021-09-28 Marketing text This book combines theory and research from educational and organizational psychology to provide guidance on improving the teacher selection process and subsequently educational outcomes for all students The book identifies the characteristics of effective teachers analyzes research on selection practices and examines new approaches to teacher selection recruitment and development The central premise of the book is that improving the effectiveness of teachers and thus students educational outcomes can be achieved by making the recruitment and selection process more effective and more efficient Accordingly the book describes how to identify and select individuals for the teaching profession who display both strong cognitive attributes e g subject knowledge and essential non cognitive attributes such as resilience commitment to the profession and motivation for teaching Key topics Teacher selection practices from the viewpoint of organizational and educational psychology Teacher effectiveness and the role of individual attributes Situational judgment tests SJTs and multiple mini interviews MMIs for teacher selection Implementation of teacher selection programs Teacher recruitment and development Given its scope the book represents an essential reference guide for scholars educational leaders and policymakers and graduate students in educational leadership programs as well as professionals in child and school psychology educational psychology teaching and teacher education *International Handbook of Teacher Quality and Policy* Motoko Akiba, Gerald K. LeTendre, 2017-09-01 The International Handbook of Teacher Quality and Policy is a comprehensive resource that examines how teacher quality is conceptualized negotiated and contested and teacher policies are developed and implemented by global national and local policy actors Edited by two of the leading comparative authorities in the field it draws on the research and contributions of scholars from across the globe to explore five central questions How has teacher quality been conceptualized from various disciplinary and theoretical perspectives How are global and transnational policy

actors and networks influencing teacher policies and practices What are the perspectives and experiences of teachers in local policy contexts What do comparative research studies tell us about teachers and how their work and policy contexts influence their teaching How have various countries implemented policies aimed at improving teacher quality and how have these policies influenced teachers and students The international contributors represent a wide variety of scholars who identify global dynamics influencing policy discourses on teacher quality and examine national and local teaching and policy environments influencing teacher policy development and implementation in various countries Divided into five sections the book brings together the latest conceptual and empirical studies on teacher quality and teacher policies to inform future policy directions for recruiting educating and supporting the teaching profession The Early Care and Education Teaching Workforce at the Fulcrum Sharon Lynn Kagan, Kathleen C. Tarrant, Kristie Kauertz, 2008 In this important new book Sharon Lynn Kagan and her colleagues focus on the more than 2 million individuals who care for and educate nearly two thirds of the American children under age 5 participating in nonparental care Providing the most thorough synthesis of current research on the early care and education teaching workforce to date the authors address frequently asked questions about teacher quality teacher effectiveness and the professional development necessary to achieve both They conclude with a call for bold changes that would transform the early care and education workforce Relying on empirical data and overviews of dozens of initiatives and programs that address early care and education teachers the book provides a broad and deep analysis of issues surrounding the early care and education teaching workforce Book Features Practical guided by research offers common sense recommendations to better prepare recruit retain and adequately compensate early care and education teachers Current synthesizes hundreds of articles and studies to provide the most up to date review of the research Comprehensive places the issues in a system based context to examine the entire early care and education teaching workforce in all settings This book honors Dr Julius Richmond s legacy by using his successful model of social change to comprehensively examine the important early care and education workforce issues facing our nation and to offer ambitious recommendations to address them Sarah M Greene President and CEO National Head Start Association *Teacher Learning and Professional Development in the Context of Forgiveness* Elizabeth D. Wilhelm-Alderton, 2007 *Innovations in Teacher Development, Personalized Learning, and Upskilling the Workforce* Chakravarti, Sriya, 2023-07-03 The time has come to refine the education ecosystem in such a way that it generates wealth creating careers personalized learning and upskilling for all types of employment opportunities so that the current and next generation of the world can find long term social stability sound mental health and financial agility From an educator s point of view this is possible through high quality education that is relevant to a particular society and effective educational policies that promote a culture of innovation encourage risk taking and continuously monitor productivity through the training and development of teachers Innovations in Teacher Development Personalized Learning and Upskilling the Workforce disseminates the best practices on high quality

education teaching training teacher student entrepreneurship and wealth generating careers It presents information on refining education through teacher development sessions and training Covering topics such as capacity building personalized learning and teacher trainee development this book is an excellent resource for educators and administrators of K 12 and higher education academic advisors preservice teachers teacher educators policymakers librarians researchers and academicians

International Handbook on Education in Southeast Asia Lorraine Pe Symaco, Martin Hayden, 2021-12-23 This International Handbook provides a detailed account of the education systems of 11 Southeast Asian nations including Brunei Darussalam Cambodia Indonesia Lao People's Democratic Republic Malaysia Myanmar the Philippines Singapore Thailand Timor Leste and Vietnam It presents a systematic sector by sector explanation of how these national education systems deliver educational services and respond to national and international issues and challenges With 56 chapters the International Handbook is the region's most comprehensive educational reference source In the first of its chapters the editors introduce the regional context and draw attention to the distinctive characteristics of each of the 11 systems Southeast Asia representing 8.5% of the world's population is as dynamic as it is diverse The International Handbook charts progress and establishes a benchmark for documenting future developments It also provides a stepping off point for more detailed investigations of decision making processes and outcomes across the 11 national education systems

Helping Staff Develop in Schools Sara Bubb, Peter Earley, 2010-02-11 Great staff make great schools and by choosing your staff carefully and helping them to develop you will make a significant impact on the lives of the young people in your care The school workforce isn't only teachers these days and good staff development must take into account everybody working in the setting As a practical guide to developing your staff this book offers an inspirational and exciting view of the transformative power of highly motivated personnel It summarizes the most recent research that sets staff development in context and then provides examples of good practice and successful ideas from a range of schools colleges and local authorities The authors address practical considerations as well as management and leadership implications to help devise strategies for developing the school workforce in order to become more learning centred and student focused Topics covered include why staff development matters leading staff development being strategic finding time for staff development identifying needs and planning for impact evaluating the impact of staff development With an emphasis on practical and research based perspectives this book offers tried and tested strategies for successful and rewarding staff development that most importantly can contribute to improving student outcomes This book is particularly relevant to those responsible for leading and managing staff development in schools colleges and at local authority level It is also useful for anyone working towards higher degrees in Education Leadership and Management Mentoring Coaching and the new qualifications for leaders of Continuing Professional Development CPD and the Masters in Teaching and Learning MTL Sara Bubb is involved in many aspects of staff development leads the national Advanced Skills Teachers AST network and lectures and researches

at the Institute of Education University of London Peter Earley is Professor of Educational Leadership Management at the London Centre for Leadership in Learning Institute of Education University of London *Education at a Crossroads* United States.
