Developing Uganda:

Developing Uganda Holger Bernt Hansen, Michael Twaddle, 1998 Uganda's recovery has been one of the heartening achievements in a continent where the media have given intense coverage to disasters. This text assesses whether the reality lives up to the image which has so impressed the donors. It incorporates the influential Roskilde series of meetings between Ugandans, academics and officials of international organizations. The success of the reforms so far is considered as are the future prospects.

Renewing Development in Sub-Saharan Africa Ian Livingstone, D. G. R. Belshaw, 2002 After two decades of economic reform programmes the majority of countries in Sub-Saharan Africa still face the challenge of renewing the development progress that they were achieving in the 1960s and early 1970s. Promising beginnings in the post-independence countries ended in economic collapse in the 1980s. This led to stabilization and structural adjustment reforms but these have had disappointing results in most of the countries that applied them. In addition, local scale inter-country conflicts and internal strife within the region and post-war complications have generated new problems. This volume reviews the ensuing debates and brings together specialist contributions to provide a clear guide to the major complexities of African development. A foundation is laid for designing a range of individual country specific policy sets in which the strategic components are prioritized according to each country's constraints and opportunities.

Corruption and Democratisation Alan Doig, Robin Theobald, 2013-11-05 The 1990s have seen an upsurge of interest and concern about the problem of political corruption. These papers examine in a range of national contexts the relationship between democratization and combating corruption. Are the two processes ultimately in conflict?

Economic Liberalization and Political Violence Francisco Gutiérrez Sanín, Gerd Schönwälder, 2010-09-15 Globalisation has spread neoliberal political economies worldwide but is the globalising of this economic system a tool for spreading peace and prosperity or a harbinger of conflict and war? The authors examine the effect of neoliberalism on violent conflict and war making in Sudan, the Ivory Coast, Peru and Colombia. Through quantitative and qualitative analyses they challenge advocates and opponents of neo-liberal reforms, revealing that the shift to neoliberal policies has produced widely diverging outcomes in different contexts, proving that the notion of global neoliberal homogeneity is flawed.

Supporting Teachers through Policy Development International Task Force on Teachers for Education 2030, UNESCO, 2023-05-05

Risk Rules Marvin Zonis, Dan Lefkovitz, Sam Wilkin, Joseph Yackley, 2011-04-01 Four political analysts explore the importance of local issues to global business and politics in this fully updated edition of *The Kimchi Matters*. Today's focus on globalization has obscured the fact that political stability and economic growth are determined at the local level. Investors and foreign policymakers set themselves up for failure when they don't consider the unique local dynamics of a particular country or region. This is equally true for companies venturing abroad and for politicians facing geopolitical challenges. In their 2003 book *The Kimchi Matters* the authors demonstrated how globalization made it more important than ever to understand the political economies of distant countries. Now they have returned to that
