Development Is Back:

Development is Back Jorge Braga de Macedo, Colm Foy, Charles Oman, 2002-01-01 This book provides a compendium of that experience and looks forward to future policies and strategies which might provide some solutions to the problems facing developing countries

Pyjama Profit Varun Mayya, Abhinav Chhikara, 2018-07-18 Pyjama Profit is a guide for millennials to get started with a self sustained online freelance practice while developing their skills needed to succeed The book talks about in demand online skills and the different paths one can take to become an expert in these fields A stable income from freelancing in college was the bedrock that had allowed the authors to explore their ambitions further and get to where they are today In the process they ve worked with many of their own batch mates colleagues and friends to help them set up highly successful freelance careers The author duo decided to detail their story of what worked for them and how anyone in the country could thrive without being tied down to a full time job The authors feel the timing of the book is perfect because of the growing freelance economy and growing aspirations among millennials to find a job they love and not just something that pays their bills

The Service Productivity and Quality Challenge P.T. Harker, 2012-12-06 3 While all of these explanations seem to have merit there is one dominant reason why the percentage of GDP and employment dedicated to services has continued to increase low productivity According to Baumol s cost disease hypothesis Baumol Blackman and Wolff 1991 the growth in services is actually an illusion The fact is that service sector productivity is improving slower than that of manufacturing and thus it seems as if we are consuming more services in nominal terms However in real terms we are consuming slightly less services That is the increase in the service sector is caused by low productivity relative to manufacturing The implication of Baumol s cost disease is the following Assuming historical productivity increases for manufacturing agriCULTure education and health care Baumol 1992 shows that the U S can triple its output in all sectors within 50 years However due to the higher productivity level for manufacturing and agriculture it will take substantially more employment in services to achieve this increase in output To put this argument in perspective simply roll back the clock 100 years or so and replace the words manufacturing with agriculture and services with manufacturing The phenomenal growth in agricultural productivity versus manufacturing caused the employment levels in agriculture in the U S to decrease rapidly while producing a truly unbelievable amount of food It is the low productivity of services that is the real culprit in its growth of GDP and employment share

Romantic Theory Leon Chai, 2006-07-31 Winner of the Jean Pierre Barricelli Prize given by the International Conference on Romanticism This original study explores the new idea of theory that emerged in the wake of the French Revolution Leon Chai sees in the Romantic age a significant movement across several broad fields of intellectual endeavor from theoretical concepts to an attempt to understand how they arise He contends that this movement led to a spatial treatment of concepts the primacy of development over concepts and the creation of metatheory or the formal analysis of theory Chai begins with P B Shelley on the need for conceptual framework or theory He then considers how Friedrich Wolf and Friedrich Schlegel shift from a preoccupation with antiquity to a heightened self awareness of Romantic nostalgia for that lost past He finds a similar reflexivity in Napoleon s battle plan at Jena and subsequently in Hegel s move from substance to subject Chai then turns to the sciences Xavier Bichat s rejection of the idea of a unitary vital principle for life as process the chemical theory of matter developed by Humphry Davy and the work of variste Galois whose proof of the solvability of equations using radicals ushered in the age of metatheory Chai concludes with reactions to theory Coleridge s proposal of the conflict between reason and understanding as a model of theory Mary Shelley s effort to replace theory with a different kind of relationship to external others and H lderlin s reflection on the limits of representation and the possibility of fulfillment beyond it

Swain,2013-08-15 Financial inclusion through microfinance has become a powerful force in improving the living conditions of poor farmers rural non farm enterprises and other vulnerable groups In its unique ability to link the existing extensive network of India s rural bank branches with the Self Help Groups SHG the National Bank of Agriculture and Rural Development NABARD has covered up to 97 million poor households by March 2010 under its Self Help Group Bank Linkage Programme Policy makers have proclaimed SHGs as the most potent initiative for delivering financial services to the poor in a sustainable manner This book presents a comprehensive scientific assessment of the impact of the Self Help Group Bank Linkage Programme SBLP on the member households The book discusses wide ranging topics including the rural financial sector in India the history and structure of the SBLP the impact methodologies the economic and social impact of microfinance its role in building assets while reducing poverty and vulnerability the role of women and their empowerment training and accumulation of human capital and policy implications of lessons learned The empirical results show that vulnerability of the more mature SHG members declines significantly Vulnerability also falls for villages with better infrastructure and for SHGs that are formed by NGOs and linked by banks The results strongly demonstrate that on average there is a significant increase in the empowerment of the female participants The economic impact of SBLP is found to be the most empowering Greater autonomy and changes in social attitudes also lead to female empowerment The investigation further reveals that training especially business training has a definite positive impact on assets but not on income The impact of training can be improved through better infrastructure as in paved roads linkage model type and the training organiser Bridging the gap in the existing literature and between academics and practitioners this book moves beyond the usual theoretical issues in the impact assessment literature and draws on new developments in methodology It will be of interest to academics development practitioners and students of economics political science sociology public policy and development studies **Proceedings** ,1922
