AI - Implementation: The PEAKS Method M. Morrison, 2025-10-02 Transform Your Industry Expertise Into AI Success You've spent years mastering your field. You understand the nuances, challenges, and what actually works in the real world. You know which processes drive results and which create bottlenecks. You can spot inefficiencies others miss and understand the unwritten rules that determine success. Now it's time to put that hard-earned knowledge to work with AI without waiting for tech teams or expensive consultants who don't understand your business. **AI Implementation: The PEAKS Method** is the practical guide that bridges the gap between your domain expertise and successful AI integration. This isn't theoretical framework written by academics who've never run real projects. It's a proven methodology designed specifically for experienced professionals who know their industry inside and out.

**The Challenge You're Facing:** Your organization buzzes with AI enthusiasm, but vendors and consultants don't understand your world. They throw around technical terms but miss operational realities: seasonal variations, regulatory constraints, and workflow dependencies that make or break implementations. You know AI has tremendous potential, but most initiatives fail because they're led by people who don't understand the business.

**What Makes This Different:** Built for domain experts. Leverage what you already know instead of starting from scratch. Learn to identify opportunities through your operational lens. Real-world tested. The PEAKS method has been refined through actual implementation projects across industries, not academic theory. Actionable from day one. Clear steps you can take immediately regardless of technical background. Results focused. Drive measurable outcomes using your existing operational knowledge.

**The PEAKS Method:**

- P** Profile your Domain Expertise: Systematically catalog your operational knowledge to identify AI opportunities.
- E** Evaluate AI Capabilities: Assess what AI can realistically accomplish in your specific context.
- A** Align Strategic Priorities: Ensure AI initiatives support business objectives and secure stakeholder buy-in.
- K** Knowledge Building: Only learn the AI solutions you will use in your implementation.
- S** Strategic Implementation: Execute and scale AI solutions that deliver measurable business value.

Whether you're in manufacturing, healthcare, finance, retail, or any other field, you'll discover how to identify the right AI opportunities, build stakeholder buy-in, and execute initiatives that deliver real value. No PhD in computer science required. Stop waiting. Your competitors are already exploring AI. Some invest millions in initiatives that fail because they lack operational insight. Others succeed because they've learned to leverage their domain expertise. The question isn't whether AI will reshape your field; it's whether you'll lead that transformation or watch from the sidelines. Ready to turn your domain mastery into competitive advantage?

Turn Everyday Expertise Into Real Money: Package Knowledge Into High-Profit Products Sybex Books, 2025-06-24 You don't need a massive audience or a fancy brand to monetize what you already know. **Turn Everyday Expertise Into Real Money** shows you how to take the skills, insights, and lived experience you've gained and structure them into offers people pay for again and again. You're already sitting on solutions. You've helped friends, solved problems, simplified processes without realizing people would pay for that same clarity.

This book helps you identify what's already valuable package it with simplicity and bring it to market fast You'll stop overcomplicating your business model and start creating high profit digital products workshops templates or services that meet real needs No fluff No endless planning Just a system that turns what you do well into repeatable income Whether you're a coach consultant creator or first time entrepreneur your knowledge is currency This book is your blueprint for turning it into a product that works while you sleep teach or create more value You don't have to be a guru You just have to be clear And when you are your expertise stops being invisible and starts being profitable
