Creative Approaches to Technology-Enhanced Learning for the Workplace and Higher Education David Guralnick, Michael E. Auer, Antonella Poce, 2024-10-03 New technologies provide us with new opportunities to create new learning experiences leveraging research from a variety of disciplines along with imagination and creativity. The Learning Ideas Conference was created to bring researchers, practitioners, and others together to discuss, innovate, and create. The Learning Ideas Conference 2024 was the 17th annual conference and was held as a hybrid event. The conference took place from June 12th-14th, 2024, both in New York and online and included the ALICE Adaptive Learning via Interactive Collaborative and Emotional Approaches Special Track and a Special Session from IGIP, the International Society for Engineering Pedagogy. Topics covered in this book include, among others: uses of artificial intelligence in learning; online learning methodologies; case studies in university and corporate settings; new technologies in learning such as, along with AI, virtual reality, augmented reality, holograms, and more; adaptive learning; and project-based learning. The papers included in this book may be of interest to researchers in pedagogy and learning theory, university faculty members and administrators, learning and development specialists, user experience designers, and others.

Case Studies on Blended Learning in Higher Education Pradeep Kumar Misra, Sanjaya Mishra, Santosh Panda, 2025-03-19 This volume offers a comprehensive exploration of the challenges and expectations teachers and trainers face in practicing blended learning approaches. Authored by renowned international experts, it presents selected case studies that delve into the design, development, and delivery of exceptional blended courses. It covers the theoretical foundations and technological affordances of blended learning applied to specific higher education contexts. It includes various models and approaches prioritizing learner-centered blended learning and discussions around technological options for improving learner content, fostering effective learner-learner and learner-teacher interaction. It provides comprehensive learner support within blended learning environments. Each chapter concludes with reflective questions encouraging readers to reflect upon and apply the valuable insights and lessons shared throughout the book. Its multidimensional approach interests teachers, teacher educators, instructional designers, and technologists, researchers, and managers of teaching and learning centers within higher education institutions.

The Adoption of Artificial Intelligence and Inertia in Higher Education James Hutson, 2025-10-01 This research monograph explores the complex resistance to integrating Artificial Intelligence (AI) within higher education institutions. Despite the significant potential of AI to enhance education, faculty adoption remains inconsistent and is often met with skepticism. This book investigates key factors contributing to this resistance, such as leadership deficits, funding barriers, cultural inertia, and faculty attitudes toward technological change. Drawing on qualitative and quantitative empirical data, case studies from U.S. and international institutions, and theoretical analysis, the book uncovers underlying concerns about job security and professional identity. It points to actionable strategies for overcoming these barriers and will be relevant for scholars, researchers, advanced students, and educators grappling with issues navigating technological integration in academia and
