## **Despite Nationalist Conflicts Theory And Practice Of Maintaining World Peace:**

**Despite Nationalist Conflicts** Kristen P. Williams, 2001-02-28 Williams explores the effectiveness of various types of responses and strategies available to states when faced with demands for territorial revisions. She examines the situations surrounding the 19th century unification of Germany, the breakup of Yugoslavia, and the strife in Bosnia and Kosovo, and the ongoing struggle over the fate of Kashmir. The type of demand for territorial revisions she argues, and the responses determine whether the outcome will be peace or war. While states should deter those states or groups that are imperialist, she points to the utility of pursuing a firm but flexible strategy toward those that are consolidationists. This analysis will be of considerable value to scholars, students, and policy makers involved with issues of contemporary nationalism, ethnic politics, and international relations.

*Ethnic Conflict* Neal G. Jesse, Kristen P. Williams, 2010-02-09 As ethnic groups clash, the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace. Allowing for greater insight, Jesse and Williams bridge two sub-fields of political science: Ethnic Conflict, international relations, and comparative politics. They systematically apply a levels of analysis framework, looking at the individual, domestic, and international contexts, to better explore and understand its complexity. Five case study chapters apply the book's framework to disputes around the world and include coverage of Bosnia, the Israeli-Palestinian conflict, Northern Ireland, Sri Lanka, and Sudan. Never losing sight of their analytical framework, the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict. Students will appreciate the book's logical presentation and excellent pedagogical features, including detailed maps that show political, demographic, and cultural data.

*Ethnic Conflict and International Politics: Explaining Diffusion and Escalation* S. Lobell, P. Mauceri, 2004-01-16 Combining theoretical analyses with case studies, this book increases understanding of the internationalization, diffusion, and escalation of ethnic conflict. The essays stand at the nexus of comparative politics and international relations, examining the influence on ethnic conflict of the weakening of state institutional structures, the role of non-state, regional, and international actors, changes in the ethnic balance of power, and the degree of economic, social, and cultural integration within the regional or global system. The variety of approaches provides useful analytical tools for students, while the diversity of cases from different regions gives the reader a sense of the scope of such problems.

*The Oxford Handbook of Gender, War, and the Western World since 1600* Karen Hagemann, Stefan Dudink, Sonya O. Rose, 2020-10-30 To date, the history of military and war has focused predominantly on men as historical agents, disregarding gender and its complex interrelationships with war and the military. *The Oxford Handbook of Gender, War, and the Western World since 1600* investigates how conceptions of gender have contributed to the shaping of war and the military and were transformed by them. Covering the major periods in warfare since the seventeenth century, the Handbook focuses on Europe and the long-term processes of colonization and empire building in the Americas, Asia, Africa, and Australia. Thirty-two essays

written by leading international scholars explore the cultural representations of war and the military war mobilization and war experiences at home and on the battle front Essays address the gendered aftermath and memories of war as well as gendered war violence Essays also examine movements to regulate and prevent warfare the consequences of participation in the military for citizenship and challenges to ideals of Western military masculinity posed by female gay and lesbian soldiers and colonial soldiers of color The Oxford Handbook of Gender War and the Western World since 1600 offers an authoritative account of the intricate relationships between gender warfare and military culture across time and space Despite Nationalist Conflicts Kristen P. Williams, 2001-02-28 Explores the effectiveness of various types of responses and strategies available to states faced with demands for territorial revisions *Gender, Race, and Power* Joyce P. Kaufman, Kristen P. Williams, 2024-10-02 Kaufman and Williams present critical issues in international relations through an intersectional approach that examines race gender class ethnicity and power to arrive at better explanations for such core IR issues as war and peace security human rights development and international political economy and the global environment Their approach builds on early calls amongst feminist IR theorists imploring Where are the women It is only fairly recently that students of IR have broadened the approach to the field to incorporate the dimensions of race ethnicity and class as well as gender Kaufman and Williams help guide readers exploring questions like How does gender matter for understanding war and peace How does race matter Where are the men What is intersectionality in IR How does an intersectional approach change or broaden our understanding of international relations **Women, Gender Equality, and Post-Conflict**

**Transformation** Joyce P. Kaufman, Kristen P. Williams, 2016-10-04 The end of formal hostilities in any given conflict provides an opportunity to transform society in order to secure a stable peace This book builds on the existing feminist international relations literature as well as lessons of past cases that reinforce the importance of including women in the post conflict transition process and are important to our general understanding of gender relations in the conflict and post conflict periods Post conflict transformation processes including disarmament demobilization and reintegration DDR programs transitional justice mechanisms reconciliation measures and legal and political reforms which emerge after the formal hostilities end demonstrate that war and peace impact and are impacted by women and men differently By drawing on a strong theoretical framework and a number of cases this volume provides important insight into questions pertaining to the end of conflict and the challenges inherent in the post conflict transition period that are relevant to students and practitioners alike

*Routledge Handbook of Civil Wars* Edward Newman, Karl DeRouen, Jr., 2014-02-18 This comprehensive new Handbook explores the significance and nature of armed intrastate conflict and civil war in the modern world Civil wars and intrastate conflict represent the principal form of organised violence since the end of World War II and certainly in the contemporary era These conflicts have a huge impact and drive major political change within the societies in which they occur as well as on an international scale The global importance of recent intrastate and regional conflicts in Afghanistan Pakistan Iraq Somalia

Nepal Cote d'Ivoire Syria and Libya amongst others has served to refocus academic and policy interest upon civil war Drawing together contributions from key thinkers in the field who discuss the sources causes duration nature and recurrence of civil wars as well as their political meaning and international impact the Handbook is organised into five key parts Part I Understanding and Explaining Civil Wars Theoretical and Methodological Debates Part II The Causes of Civil Wars Part III The Nature and Impact of Civil Wars Part IV International Dimensions Part V Termination and Resolution of Civil Wars Covering a wide range of topics including micro level issues as well as broader debates Routledge Handbook of Civil Wars will set a benchmark for future research in the field This volume will be of much interest to students of civil wars and intrastate conflict ethnic conflict political violence peace and conflict studies security studies and IR in general
