Le Corps dans le roman des écrivaines syriennes contemporaines Martina Censi, 2016-05-02 Le Corps dans le roman des écrivaines syriennes contemporaines de Martina Censi explore les représentations du corps dans un corpus de romans en arabe publiés entre 2004 et 2011 par six écrivaines syriennes L auteure conjugue l analyse du texte littéraire avec la critique féministe et les études de genre Par cette approche interdisciplinaire Censi démontre que l attention réservée par ces écrivaines aux représentations du corps féminin et masculin témoigne de leurs engagements dans la lutte pour l émancipation des femmes mais aussi et surtout dans celle pour l affirmation de l individu dans la société syrienne contemporaine Les corps des personnages marqués par leur différence unique sont le lieu symbolique de la négociation entre les instances individuelles et collectives In Le Corps dans le roman des écrivaines syriennes contemporaines Martina Censi explores the representation of the body in a selection of Arabic novels published between 2004 and 2011 by six Syrian women authors Taking an interdisciplinary approach which combines analysis of the literary texts with Feminist Criticism and Gender Studies Censi demonstrates that by focusing on the representation of female and male bodies these novelists deal not only with feminist issues related to women's emancipation The author reveals that they also engage in a broader analysis concerning the status of the individual in contemporary Syrian society Marked by their unique difference the characters' bodies become the symbolic location for the negotiation between individual and collective claims Genetic Translation Studies Ariadne Nunes, Joana Moura, Marta Pacheco Pinto, 2020-10-01 Examining the research possibilities, debates and challenges posed by the emerging field of genetic translation studies this book demonstrates how both theoretically and empirically genetic criticism can shed much needed light on translators' archives the translator figure and the creative process of translation Genetic Translation Studies analyses a diverse range of translation materials including manuscripts, typographical proofs, personal papers, letters, testimonies and interviews in order to give visibility, body and presence to translators Chapters draw on translations of works by authors such as Saint John Perse, Nikos Kazantzakis, René Char, António Lobo Antunes and Camilo Castelo Branco in each case revealing the conflicts and collaborations between translators and other stakeholders including authors, editors and publishers Covering an impressive array of language contexts from Portuguese, English and French to Greek, Finnish, Polish and Sanskrit this book demonstrates the value of the genetic turn in translation studies and offers new ways of working with translator correspondences , **MLN.** , 1921 Provides image and full text online access to back issues Consult the online table of contents for specific holdings **Antioch-on-the-Orontes** George Wicker Elderkin, Richard Stillwell, 1934 **Bulletin bibliographique de la Société internationale arthurienne** International Arthurian Society, 1967 **French Poetry** Frances Ramsay Angus, 1928 *Oeuvres Complètes de H. de Balzac* Honoré de Balzac, 1877 **The Seine from Havre to Paris** Thomas Edward Thorpe, 1913 States of Decadence Guri Barstad, Karen P.
