students who attended online English lessons This will be done in form of online questionnaires which aim to identify appropriate digital resources for the virtual EFL classroom as well as possibilities and problems that could arise from distance learning in EFL The final step of this thesis is to develop a sample online English lesson in times of distance learning as an alternative possibility to a traditional English lesson in the class room on the basis of the results from the questionnaires Therefore both perspectives teachers and students will be taken into consideration since their experiences help to improve distance learning in English The main goal of the development of this online lesson in English is to show that teachers are also able to fulfill the requirements of the curriculum in distance learning and bearing this in mind a possible implementation of a hybrid learning system could be an alternative way of learning and teaching for the future
