Developing And Managing Community Water Supplies Oxfam Development Guidelines:

Developing and Managing Community Water Supplies Jan Davis,1993 **Developing and Managing Community Water Supplies** Jan Davis,Gerry Garvey,Michael Wood,1993 Based on direct field experience and using short case studies this book discusses the issues and stages in the development of water supplies from the initiation of a programme through to the community management of a supply system The importance of involving all the members of a community in decisions about water provision is emphasised as is the need to incorporate hygiene education from the outset Developing and Managing Community Water Supplies Jan Davis,Gerry Garvey,Michael Wood,1993 This book discusses the issues and stages in the development of water supplies from the initiation of a programme through to the community management of a supply system The importance of involving all the members of a community in decisions about water provision is emphasised as is the need to incorporate hygiene education **How to Support Community Management of Water Supplies** Catarina Fonseca,Eveline Bolt,2002 This book is for those who are in charge of facilitating community management of water supplies It provides guidelines and food for thought for managers and decision makers who want to improve the performance of their organization and make sure that water supply services in place keep working It answers such questions as what kind of support do communities require How can this support be provided What are the organizational conditions we need to put in place What tools can we use Who should be involved What does it demand from support organizations and the communities In other words what does it take to support community management of water supplies **Setting Up Community Health and Development Programmes in Low and Middle Income Settings** Ted Lankester,Nathan J. Grills,2019 Over half the world s rural population and many in urban slums have minimal access to health services This book describes how to set up new and develop existing community based health care for by and with the community A Place Called Home Merle Sowman,Penny Urquhart,1998 Quality of life a healthy environment and sound development are closely linked This book provides ideas and guidance on the upgrading of informal settlements and planning of low cost housing projects so that they are environmentally sustainable By considering environmental factors at all stages of the planning design and development process living conditions in such settlements and housing projects can be significantly improved Includes a list of useful addresses District Laboratory Practice in Tropical Countries, Part 2 Monica Cheesbrough,2005 This new edition includes an update on HIV disease AIDS recently developed HIV rapid tests to diagnose HIV infection and screen donor blood and current information on antiretroviral drugs and the laboratory monitoring of antiretroviral therapy Information on the epidemiology and laboratory investigation of other pathogens has also been brought up to date Several new rapid simple to perform immunochromatographic tests to assist in the diagnosis of infectious diseases are described including those for brucellosis cholera dengue leptospirosis syphilis and hepatitis Recently developed lgM antibody tests to investigate typhoid fever are also described The new classification of salmonellae has been introduced Details of manufacturers and suppliers

now include website information and e mail addresses The haematology and blood transfusion chapters have been updated including a review of haemoglobin measurement methods in consideration of the high prevalence of anaemia in developing countries **Making Your Water Supply Work** Jan Davis,François Brikké,1995 This document has been produced in order to provide project staff and sector professionals with the most recent information regarding trends and developments in the operation and maintenance of water supply systems of small communities Political Ecology and the Role of Water Gerhard Lichtenthäler,2017-03-02 How can we explain the over exploitation and degradation of natural resources in the countries of the South Population growth poverty and problems associated with common property resource management have been common themes in this debate yet insufficient attention has been paid to how traditional political relations and local perceptions affect natural resource capture and resource allocation This is especially evident with respect to groups and communities at the political and geographical peripheries of state influence and control for whom self identity is constructed around notions of autonomy and food self sufficiency This informative book addresses this omission by discussing water resource allocation and management It focuses in particular on the socio economic and political contexts which influence approaches to and determine practices of water management Taking the example of the tribal communities of the Sa dah basin in the northern Yemen it analyzes the politics of environmental change with particular reference to groundwater resource degradation within the conceptual framework of political ecology **Waterlines** ,1997 Common Property Water Resources ,2008-01-01 Property rights on water largely a common property resource are very crucial in inducing collective action for management and conservation State support to community action both technical and financial appears to be the prerequisite to affirmative actions in harnessing and managing water resources at the village level in India These are two important messages coming out of this research study It also adds to the evidence that landless labourers and marginal farmers in India depend in a major way on common resources for their traditional livelihood activities and domestic uses A significant revelation is the emerging undercurrent of competition between big and small farmers over the use of such resources and the apparent exclusion of social minorities landless and women in their management The discussions on water markets and the unique state specific case studies reflect that necessity and scarcity induce people to organize themselves for creating greater availability of common water resources and sharing the benefits more equitably **District Laboratory Practice in Tropical Countries Part - 2** Mr. Rohit Manglik,2024-03-02 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels *Abstracts on Rural Development in the Tropics* ,1994 **Water Services Management** David Stephenson,2005-03-01 Water services include water supply sewerage and stormwater drainage The facilities needed for these services are pipelines reservoirs and treatment works but the service goes beyond

the infrastructure It includes economics billing and business management Although these services exist in every city being advanced by the growing use of automation and information technology costs are also increasing without many consumers seeing increased benefits Customer service is therefore becoming important to the industry Water Services Management is intended to educate engineers to manage and improve water services rather than simply designing and constructing treatment works and distribution systems The text covers water supply and drainage from the hydraulic and economic points of view and while design and construction practices are reviewed the focus of the book is on improving existing systems to turn the emerging industry into an attractive business Topics covered include Potable water supply sewerage and stormwater drainage Hydraulic management storage peak flow attenuation and pumping Water quality standards pollution control and treatment Infrastructure management rehabilitation reconstruction upgrading and maintenance Economic efficiency asset management privatization and risk analysis Improving economic viability via efficient use of energy and construction project management Characteristics encountered in developing countries are also considered including Low cost sanitation water supply standards and off grid energy sources Capacity building and appropriate technologies Financing operation and benchmarking   Rural Development Abstracts ,2012   **Freshwater and Gender** Anna Brismar,1997   *Water Supply & Management* ,1978   Water Development and Management ,1978   **Geoscience Documentation** ,1993   **British Reports, Translations and Theses** British Library. Document Supply Centre,1994
