Developing Person Centered Counselling:

Developing Person-Centred Counselling Dave Mearns, 2002-11-27 This is a useful book for those who use person centred counselling in their practice or who are training to become person centred counsellors Counselling and Psychotherapy the Journal of the British Association for Counselling and Psychotherapy Developing Person Centred Counselling Second Edition is designed to help counsellors improve their skills within the person centred approach Written by Dave Mearns leading person centred expert and bestselling author the Second Edition has been fully revised and updated taking account of developments in person centred practice With new chapters on growth and transference the book covers the subjects which are central to person centred training the core conditions therapeutic alliance development of the counsellor therapeutic process the person centred approach in relation to psychopathology Supported by case material and examples from practice each part of the book presents the counsellor with practical and often challenging ideas which encourage him/her to think carefully about his/her practice and how to improve it Developing Person Centred Counselling Second Edition is a highly practical and inspiring resource for trainees and practitioners alike Person-Centred Counselling Training Dave Mearns, 1997-11-14 This thoughtful and thought provoking book is essential reading not only for those involved in the training of counsellors within the person centred approach but also for individuals who may have simplistic dismissive or otherwise ill informed notions of the depth of self awareness required of the person centred practitioner and the far reaching challenges offered by the approach For counsellors who define themselves as person centred but who have had no substantial training it should be compulsory reading British Journal of Guidance Counselling Person centred counselling probably requires more training and a greater intensity of training than most other mainstream counselling approaches but until now no one book has concentrated solely on the principles practices and requirements of training person centred counsellors Dave Mearns has drawn on the lived experiences of both trainers and trainees to demonstrate the potential range and importance of training in this field The material covered includes selecting and supporting trainers selecting course members skills development supervision and other professional issues essential features of all counsellor training but of particular relevance to the person centred approach Written expressly for both trainees and trainers this book also extends and develops current thinking within the approach and will be a valuable resource for all person centred practitioners

The Handbook of Person-Centred Psychotherapy and Counselling Mick Cooper, Maureen O'Hara, Peter F. Schmid, 2013-05-31 Thoroughly updated to reflect the latest trends in theory and practice this substantially revised and extended edition is the most in depth and wide ranging textbook available on person centred psychotherapy and counselling Divided into four parts it examines the theoretical philosophical and historical foundations of the person centred approach the fundamental principles of person centred practice and applications of person centred practice how person centred conceptualisations and practices can be applied to groups of clients who bring particular issues to therapy and finally

professional issues for person centred therapists such as ethics supervision and training Written by a diverse range of expert contributors unified by a more relational ethics based reading of person centred theory and practice this is a comprehensive cutting edge resource for students on all advanced level person centred courses as well as for a wide range of professional practitioners in the field New to this Edition A new introductory chapter looking at contemporary challenges and opportunities for growth for the person centred world Nine further new chapters including work with children and young people older clients arts based therapies addiction and bereavement spiritual dimensions contact and perception working integratively global and political implications Increased use of text learning features to make the chapters more accessible and engaging A greater focus on actual practice with more case studies and examples of therapist client dialogues Increased reference to research A general updating of all chapters to include all relevant references

Person-Centred Counselling Training Dave Mearns,1997-11-28 This thoughtful and thought provoking book is essential reading not only for those

involved in the training of counsellors within the person centred approach but also for individuals who may have simplistic dismissive or otherwise ill informed notions of the depth of self awareness required of the person centred practitioner and the far reaching challenges offered by the approach For counsellors who define themselves as person centred but who have had no substantial training it should be compulsory reading British Journal of Guidance and Counselling Person centred counselling probably requires more training and a greater intensity of training than most other mainstream counselling approaches but

Working at Relational Depth in Counselling and Psychotherapy Dave Mearns,Mick Cooper,2005-10-03 The book represents a gentle revolution The gentleness comes from its lack of stridency and from its inclusiveness and the radical quality is that person centred therapy in particular and all therapeutic work in general cannot be the same again Therapy Today this is a great most important and for the English language readership ground breaking book The subject of the book is of enormous interest and importance within and beyond the person centered and experiential orientations in the whole field of psychotherapy and counselling both in its practice and its theoretical development This great book had to be written It presents an existential phenomenological dialogical approach at its best and highlights the power of encounter relationship This book does not only portray the state of the art of person centered and experiential psychotherapies Since many modalities develop in this direction it is foundational for the realm of psychotherapy and counselling as such The book is of enormous international interest not only the international perspective on literature and development in the field but also the cross links of different views contribute to the development of psychotherapy and counselling and will be fruitful for interdisciplinary dialogue This book stands as a landmark It will be very influential to theory and practice If you don t read it you will not be able to join in further discussion and theory and practice developments Person Centered and Experiential Psychotherapies Mick Cooper and Dave Mearns have managed to literally write with relational depth This reader experienced them as human beings from their introductions in the preface Their authenticity

their transparency and their humility evident from the first few words mirrored the encounter at relational depth this book is dedicated to By the end of chapter 6 the reader can imagine every trainee in the future with a well worn coffee and tear stained copy of this book in their satchel This is quite simply a very good book it teaches a bold heart felt and daring discourse on the issue of communication in the therapeutic encounter Somebody needed to write a book such as this Hopefully it will encourage us to examine more closely and conduct more research upon what happens between therapists and their clients Psychology and Psychotherapy I found this book really refreshing and more relevant to my practice as a counsellor than any other book on the subject which I have ever read It felt very erudite honest and real truly representative and reflective of what it is like to attempt to work as a person centred counsellor and also found it stimulating enlightening My experience reading it was one of being accompanied and understood as a practitioner there were a lot of yes that is how it is moments as well as that is how it should could be times too and I also felt both guided and inspired like receiving good supervision in book form In addition I found the writing style very accessible warm and engaging Person Centred Counsellor Staffordshire University It does not happen very often that a scientific publication is an exciting read but in this case that was indeed my experience It touched me as a reader in its written genuineness and I appreciate the fact that the views expressed in this book seem to be firmly grounded in scientific research rather than the research being used as a simple way of demonstration or proving a point The cooperation between the authors has apparently been so thorough that throughout the various chapters only small differences in style can be noticed Tijdschrift Cliëntgerichte Psychotherapie I believe this book will have a durable and intense impact on the perception and discussion of person centred theory It is a brilliant exposition of where person centred theory is at The new developments are integrated into the fabric of person centredness in ways that are not disruptive yet radically alter the thing itself Person Centred Quarterly This is one of those rare books which will attract a wide readership because it operates at so many different levels It is by turn scholarly dramatic challenging prophetic practical intensely personal and yet with implications which if taken seriously could transform the whole field of counselling and psychotherapy Brian Thorne The Norwich Centre for Personal Professional Development This new text by Dave Mearns and Mick Cooper is at once timely informative challenging and a delight to read Professor Ernesto Spinelli Senior Fellow School of Psychotherapy and Counselling Regent's College London This is an important book It integrates concepts and practices from a range of approaches to therapy and offers a convincing and original perspective that has the potential to inform practice training and research for many years to come John McLeod Professor of Counselling Tayside Institute for Health Studies University of Abertay Dundee Working at Relational Depth in Counselling and Psychotherapy is a groundbreaking text which goes to the very heart of the therapeutic meeting between therapist and client Focusing on the concept of relational depth Dave Mearns and Mick Cooper describe a form of encounter in which therapist and client experience profound feelings of contact and engagement with each other and in which the client has an opportunity to explore whatever

is experienced as most fundamental to her or his existence Drawing from their own practice interviews with therapists and a diverse range of theoretical and empirical sources the authors address the key question of how therapists can meet their clients at a level of relational depth They show how different aspects of the therapist combine to facilitate a relationally deep encounter highlight the various personal blocks which may be encountered along the way and introduce new therapeutic concepts such as holistic listening which can help therapists to meet their clients at this level Two powerful case studies a client with a drink problem and a traumatized client have been selected to illustrate key aspects of working at relational depth Like many of the ideas discussed in this book the case studies represent a challenge to conventional thinking about the therapist client relationship and the nature of the therapeutic process Eagerly awaited by many counsellors and psychotherapists *Working at Relational Depth in Counselling and Psychotherapy* is a source of fresh thinking and stimulating ideas about the therapeutic encounter which are relevant to trainees and practitioners of all orientations Dave Mearns is Professor of Counselling University of Strathclyde His previous books with SAGE include *Person Centred Counselling in Action* Second Edition with Brian Thorne *Developing Person Centred Counselling* Second Edition and *Person Centred Counselling Training* Mick Cooper is Senior Lecturer in Counselling University of Strathclyde His previous publications include *Existential Therapies* SAGE Publications 2003 *Understanding Person-Centred Counselling* Christine Brown, 2014-12-22 This book provides a key introduction to the theory concepts and practice of the person centred approach through the lens of the practitioner s experience and personal development Writing as someone who has been through real life challenges and has developed and learned as a result the author s strikingly personal style not only helps to contextualise complex and nuanced theory but makes this a truly unique book about real person centred practice and experience From Roger s early philosophy through to the current developments and controversies in the field the author uses personal testimonies exercises and reflection points to make challenging concepts and practice issues accessible for the novice reader What results is an informative and fascinating read for all those training and interested in the person centred approach

Person-Centred Therapy Today Dave Mearns, Brian Thorne, 2000-08-25 This is a book that is rooted in the origins of person centred therapy but stands at the cutting edge of new ideas developing in this tradition It will reinvigorate those of us already immersed in this tradition It should convince newcomers of the vitality and potential of this approach to therapy Tim Bond University of Bristol This book is clearly a labour of love by two authors with unique abilities and unparalleled experience readers will be educated inspired and encouraged in their own dialogue with the person centred approach Charles J O Leary Denver Colorado Mearns and Thorne have done Rogers proud in suggesting how person centred theory and practice can without losing its essence evolve in new directions Richard Nelson Jones Director of the Humanistic Cognitive Institute Chiang Mai *Person Centred Therapy Today* represents a significant contribution to the development of the person centred approach It will be read by teachers and students of counselling and psychology who wish to keep their

knowledge of the approach fully up to date and by all who consider themselves to be person centred in their approach to helping clients

Client-Centered and Experiential Psychotherapy in the 21st Century Jeanne C. Watson, Rhonda N. Goldman, Margaret S. Warner, 2002 This book includes 39 papers presented at the International Conference on Client Centered and Experiential Psychotherapy held in Chicago in May 2000 This international collection of papers spanning theory and practice across classical client centred to experiential psychotherapy offers a rich diversity of thinking and opinion

Art Therapy Liesl Silverstone, 1997 Art Therapy The Person Centred Way is an enlarged edition of the first book published on person centred art therapy and includes many more exercises and ideas It demonstrates that by bringing the person centred facilitative approach to images expressed in art form healing and growth can occur at every level of development We need to engage both our verbal and non verbal intelligence to become integrated To illustrate the effectiveness of this process the book chronicles twelve students as they make their way through a year's person centred art therapy course sharing their step by step difficulties and successes in becoming person centred learning from their images and applying person centred art therapy in their diverse work settings The process based on self discovered learning negotiated decision making self peer assessment and certificating demonstrates the collective aspect of the person centred approach in action This radical model can be transposed to a wide range of settings With its many exercises and illustrations refreshing ideas and wide scope of application this book is a rich resource manual and a must for everyone both in training and in practice involved with human development

Theory and Practice of Counselling & Therapy Richard Nelson-Jones, 2001-03 A new edition of a highly regarded textbook that reviews the major theories of counselling and psychotherapy and explains their practical applications in working with individual clients

REVIEWS

Thank you for revising the bible I am a tutor on a so called integrative counselling course and I thoroughly endorse the idea that Carl Rogers would have welcomed this honesty and new interpretation of his model Your SAGE book is indeed a bible and I have repeatedly recommended it to the students lecturer YouTube For students and those new to person centred counselling there is a clear exposition of person centred theory For experienced practitioners there are new and challenging theoretical developments within the person centred approach If new to counselling this is a must have If wondering whether to invest in this edition when there is already a copy of the earlier one on the shelf the challenge of the new theoretical material is persuasive but if that is not enough then the updated practice guidance the practical questions and answers and the comprehensive references must make this new edition another bestseller

Therapy Today It is now almost twenty years since the first edition of *Person Centred Counselling in Action* appeared In that time this SAGE bestseller has maintained

enormous popularity with trainees and practitioners and has achieved world wide acclaim This substantially revised Third Edition provides an excellent introduction to the theory and practice of person centred counselling while incorporating exciting new developments in the approach Dave Mearns and Brian Thorne have preserved the compelling and accessible style of its predecessors At the same time they provoke reflection on many of the key issues which concern not only person centred practitioners but those across the whole counselling and psychotherapy field New to this edition is the inclusion of relational depth a key development for the person centred approach and counselling generally extended discussion of the counsellor's use of self a new chapter containing the authors answers to frequently asked questions the inclusion of diversity issues covering religion gender and sexual orientation further reading suggestions Much has changed in the person centred orientation since the death of Carl Rogers in 1987 Not only have new schools of thought emerged with different emphases and therapeutic possibilities but the authors of this book have themselves been responsible for significant advances in key areas of person centred theory and practice These developments are fully reflected in the revised text Continuing to offer a clear exposition of the theory and practice of the approach Person Centred Counselling in Action Third Edition will be invaluable for those embarking on their first stages of training Well established practitioners and even seasoned scholars will continue to find much to interest and stimulate them Praise for previous editions An important book a most sophisticated text Mearns and Thorne have written a book for all counsellors and psychotherapists The reader will be left both grateful and hungry for more British Journal of Guidance and Counselling The discussion of empathy acceptance and congruence is central and should be required reading for all trainees working to understand the richness of these core concepts outstanding Counselling and Psychotherapy The Journal of the British Association for Counselling and Psychotherapy Without doubt the clearest description of the person centred approach to counselling that I have read apart from Carl Rogers own writings I felt that I had got to know both Dave Mearns and Brian Thorne through their offering the reader their own congruence and I found this aspect of the book at times quite moving Social Work Today Gives real insight into person centred counselling This is a gentle book an absolute delight to read I couldn't put it down as it held me in the realm of my own feelings I would like to thank both authors for sharing so much of their intimate selves I recommend this book to trainee counsellors trained counsellors clients and those involved in the helping professions It is a book that has influenced me and that I would not want to be without BPS Counselling Psychology Review Excellent all rounder for practitioners to learn and build upon counselling skills with young offenders lecturer Guidance Youth and Youth Justice Nottingham Trent University An excellent text Student friendly and covering all main issues lecturer Psychology Swansea Institute of HE Stimulates a re exploration of the doctor patient relationship British Medical Journal I felt understood by this book Ann Weiser PCA Letter Network This book could very sensibly be placed on the reading lists of all counselling trainers and trainees this is the most informative and useful book I have read in a long time and I have no doubt that if Carl Rogers were still alive today he would

not only agree but also acknowledge experiencing some envy Changes The skilful conveying of tenderness and building of trust are well explained and described with lots of case study examples Guidance Matters Excellent book a useful and practical way to underpin current emphasis on humanism in nursing lecturer West London NHS Mental Health Trust Continues to be an excellent easy introduction but with depth Deserves to be a bestseller lecturer Preston College The book conveys the profound respect for the person for his/her autonomy and uniqueness which is inherent in the Rogerian approach British Journal of Medical Psychology A marvelous book highly recommended Someone has finally written an easily accessible book about the theory and practice mostly practice of the kind of therapy that makes the most sense to many focusers Hurrah The Focusing Connection Truly allows the reader to enter the world of the person centered counsellor Contemporary Psychology Person Centred Counselling in Action written by Dave Mearns and Brian Thorne was originally published in 1988 about a year after the death of Carl Rogers It has helped to maintain and stimulate interest in this approach and has become a best seller in the Counselling in Action series The Journal of Critical Psychology Counselling and Psychotherapy *Learning and Being in Person-centred Counselling* Tony Merry, 2002 In the second edition of this hugely popular book Tony Merry reorganised and updated the text to include the latest initiatives in the world of counselling and psychotherapy It offers in depth discussion of all aspects of person centred counselling from its origins to current developments in theory and practice Theory and Practice of Counselling and Therapy Richard Nelson-Jones, 2006-01-26 Theory and Practice of Counselling and Therapy written by Richard Nelson Jones is a comprehensive introduction to all of the major therapeutic approaches Written using a common structure for each approach the book allows easy comparison between the different orientations **Handbook of Counselling Psychology** Ray Woolfe, Windy Dryden, 1996-06-06 This book provides comprehensive coverage of counselling psychology in contemporary Britain Leading psychologists provide a thorough examination of all the major areas concerns in the field **The Handbook of Person-Centred Psychotherapy and Counselling** Gina Di Malta, Maureen O'Hara, Susan Stephen, Yana Gololob, 2024-10-03 Thoroughly updated to reflect the latest trends in theory and practice this third edition is the most in depth and wide ranging text available on person centred psychotherapy and counselling Written by a diverse range of expert contributors this is a cutting edge resource for students of psychotherapy and counselling on a range of programmes as well as professional practitioners working in the field Emerging Developments in Pre-Therapy Garry Prouty, 2008 Pre therapy focuses on the lower levels of functioning learning disability regression chronic schizophrenia and dementia Pre therapy is a commitment to understand and treat the regressed levels of being in the world This book examines the theoretical growth resulting from pre therapy *Handbook of Individual Therapy* Windy Dryden, 1996-08-22 The Handbook of Individual Therapy presents a concise and accessible introduction to 12 key approaches to individual therapy It is a completely updated and rewritten new ed of the highly successful Individual Therapy published by OUP in 1990 **Love's Embrace** Brian Thorne, 2005 Presents an

autobiographical study offering revealing insights into the author's personal and professional journey. He has been a controversial figure and his writings have provoked fierce not only among psychotherapists and counsellors but also in the ranks of theologians and religious educators. *A Social Interactional Approach to Counselling/psychotherapy* Clifford M. Person-Centred Counselling in Action Dave Mearns, Brian Thorne, 1988-10 This practical and comprehensive guide is written for counsellor trainers and their trainees as well as for counsellors already in practice wanting to familiarize themselves with the person-centred approach to counselling. Dave Mearns and Brian Thorne explain the theoretical principles of the person-centred approach by relating these principles to actual practice. Drawing on one particular case study, the two counsellors present an extensive exploration of the core conditions of empathy, acceptance and congruence and provide a step-by-step account of both the counsellor's and the client's experience of being involved in a trusting, caring relationship characterised by power sharing and mutuality.
