Development Decay And Social Conflict An International And Peruvian Perspective:

Development, Decay, and Social Conflict Xavier Alcalde Cardoza, 1991 This book was inspired by the crisis of development and the escalation of social disorder and violence that emerged in many Third World nations during the 1980s. From its beginnings the promotion of development in the Third World has had political as well as social and economic aims. This volume challenges certain widely held views about economic and political development. Alcalde provides evidence that programs aimed at the increase of incomes and gross national product have sometimes contributed not to development but to corruption and social decay. He analyzes the relationship between political and economic development and the interconnection between development and social conflict. Few social and economic thinkers have as profound an understanding of politics as Alcalde. He writes as historian, political scientist, economist, and social philosopher. Co-published with the Miller Center of Public Affairs. *Africa's Second Wave of Freedom* Lyn S. Graybill, Kenneth W. Thompson, 1998 *Africa's Second Wave of Freedom* represents the work of scholars who share a concern with the development of civil society in Africa. The first third of the book deals theoretically with the issues of democracy and stability in Africa. In particular, the contributors analyze the inadequacy of the United States response to African problems such as environmental decay, spiraling debt, and health epidemics that do not respect national boundaries, the fragility of democracy in Africa, and the danger of reversion to dictatorships and the barriers to constitutional democracy in sub-Saharan Africa. The remainder of the book consists of case studies of various aspects of civil society from Mozambique, Nigeria, Zimbabwe, and South Africa.
