Handbook of Research on Adult Learning in Higher Education Okojie, Mabel C.P.O.,Boulder, Tinukwa C.,2020-02-01 In today's globalized world professional fields are continually transforming to keep pace with advancing methods of practice. The theory of adult learning specifically is a subject that has seen new innovations and insights with the advancement of online and blended learning. Examining new principles and characteristics in adult learning is imperative as emerging technologies are rapidly shifting the standards of higher education. The Handbook of Research on Adult Learning in Higher Education is a collection of innovative research on the methods and applications of adult education in residential, online, and blended course delivery formats. This book will focus on the impact that culture, globalization, and emerging technology currently has on adult education. While highlighting topics including andragogical principles, professional development, and artificial intelligence, this book is ideally designed for teachers, program developers, instructional designers, technologists, educational practitioners, deans, researchers, higher education faculty, and students seeking current research on new methodologies in adult education.

A Guide to Disseminating Your DNP Project Marilyn Smith-Stoner,2018-01-28 A Guide to Disseminating Your DNP Project provides an effective, proven blueprint that enables students to disseminate their DNP Projects. This book describes the process of disseminating the final written assignment as is recommended by the American Academy of Colleges of Nursing (AACN) for graduation from a DNP program. For all DNP graduates looking to make a positive impact on health care, today's dissemination of knowledge and research is imperative to initiate quality improvement effectively. By sharing the results of their research, DNP graduates can improve healthcare. This book provides step-by-step instruction for all methods of dissemination, from print to digital media. The text provides step-by-step instructions for each type of dissemination and highlights specific resources and their benefits and drawbacks. It includes explanations of how to use social media, web-based platforms, and alternative artistic means. A Guide to Disseminating Your DNP Project contains a uniquely apt set of resources for the DNP graduate. Key Features: Checklists that illustrate the process of transforming a project to a manuscript or other presentation; User-friendly graphics and diagrams that summarize content; An Appendix with over 50 links to online resources for dissemination; Faculty Guide to help their DNP students through dissemination.

The Organization of the Expert Society Andreas Werr,Staffan Furusten,2016-12-01 It is often claimed that we live in an expert society, a society where more and more individuals take expert roles in increasingly narrow fields. In contrast to more traditional experts, most of these new experts lack generally accepted mechanisms for the certification and legitimation of their expertise. This book focuses on these new as well as established experts and the efforts undertaken to secure and legitimize their expertise. We view these efforts as organizing attempts and study them on four different levels: the society, the market, the organization, and the individual. Based on empirical studies on these four levels of analysis, The Organization of the Expert Society makes the argument that current organizing initiatives in the expert society are based on an objectifying view.

of expertise that risks concealing and downplaying key aspects of expertise Well intended organizing initiatives in the expert society thus run the risk of promoting ignorance rather than securing expertise Focusing on a current general and global phenomenon the rise and organization of an expert society The Organization of the Expert Society will be key reading for scholars academics and policy makers in the management fields of Organizational Theory Management Consulting Organizations Society Critical Management Studies as well as the disciplines of Sociology Political Science and Social Anthropology *Expert Resumes for Computer and Web Jobs* Wendy S. Enelow, Louise Kursmark, 2005 Dozens of professional resume writers share their secrets and sample resumes for landing the fastest growing and highest paying jobs in the computer and online industries showing readers how to present technical skills in reader friendly language that employers demand Includes over 180 pages of sample resumes targeted to high tech jobs from entry level to executive

Envisioning Real Utopias Erik Olin Wright, 2020-05-05 Rising inequality of income and power along with recent convulsions in the finance sector have made the search for alternatives to unbridled capitalism more urgent than ever Yet few are attempting this task most analysts argue that any attempt to rethink our social and economic relations is utopian Erik Olin Wright s major new work is a comprehensive assault on the quietism of contemporary social theory A systematic reconstruction of the core values and feasible goals for Left theorists and political actors Envisioning Real Utopias lays the foundations for a set of concrete emancipatory alternatives to the capitalist system Characteristically rigorous and engaging this will become a landmark of social thought for the twenty first century Interprofessional Education Toolkit Nassrine Nouredine, Darla K.
