Indigenous Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole

Christina, 2025-03-28 Literature indicates that sociolinguists and educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion. Such claims delay the implementation of decolonization policies and the transformation of the curriculum under false assumptions. However, research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them. This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation. As a result, further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students. **Indigenous Teaching Disciplines and Perspectives for Higher Education** illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models. It explores how to improve Indigenous knowledge content and teaching methods. Covering topics such as cultural identity, African research methodology and Indigenous media, this book is an excellent resource for teachers, policymakers, school administrators, researchers, scholars, academicians and more.

Artificial Intelligence Literacy in Higher Education Imre Fekete, 2025-07-08 This book explores the concept of artificial intelligence (AI) literacy within higher education, addressing both instructors and students' preparedness to engage with AI technologies responsibly and effectively. By synthesising existing frameworks and empirical studies alongside presenting two original research studies, the book bridges theoretical foundations with practical applications tailored for modern educational contexts. Practical recommendations include methods to develop AI literacy skills focusing on ethical awareness, technological competence and the potential for AI to enhance teaching and learning processes. Aimed at higher education instructors, stakeholders and students, the book offers actionable insights and tools for fostering informed and critical engagement with AI aligned with lifelong learning goals and professional development needs.

Virtual Reality, Augmented Reality and Artificial Intelligence in Special Education Ange Anderson, 2019-03-20 New technologies and ongoing developments in the fields of Virtual reality, augmented reality and artificial intelligence are changing the ways in which we facilitate learning. Recognising the positive role these technologies can play in the learning and progress of students assessed as having special educational needs, this practical guide explains the characteristics, benefits, risks and potential applications of new technologies in the classroom. An innovative and timely resource, **Virtual Reality, Augmented Reality and Artificial Intelligence in Special Education** offers a background in the evidence-based theory and practice of using new technologies in an educational context. Accessible and free of complex jargon, chapters provide information on the development, intended uses and most current terminology used in relation to technologies and explains how modern equipment, approaches and possibilities can be used to
