Harrison, 2024-08-13 With the pace of a thriller and the heart of a drama Taylor Lorenz The Editors is unnervingly familiar to anyone who has googled scrolled or browsed online in the past decade Aim for Neutrality We Need Better Sources Anonymity is Fundamental Keep Developing The editors know these principles The editors follow them every day usually The editors may not be recognized on the street but they craft the information that is seen on nearly every internet search Through Infopendium a global crowd sourced internet encyclopedia the editors influence the world Freelance journalist Morgan Wentworth recently laid off from PopFeed News attends the Global Infopendium Conference in New York expecting a straightforward story to help pay the rent But the so called pendium people are full of surprises PhDs rub shoulders with

high school students all quoting the project's rules and regulations like a second language. Sure millions of people see the facts curated by these editors but who really cares about the free encyclopedia? When a hacker attacks the conference and posts a cryptic message it becomes clear that somebody does. And Morgan decides to find out who. But the path through an online information war is far from clear. Foreign governments, billionaires, and a global virus threaten to sway the truth on Infopendium. And far from Morgan's sight in places as different as Beijing and Kansas, some of the editors have plans of their own.

States of Immersion Across Media Philippe Bédard, Alanna Thain, Carl Therrien, 2025-10-01 Immersion across media opens our perception to altered states of consciousness. Far from disconnecting us from our surroundings, these experiences reframe how we connect to the world and to others. In this age of technological acceleration, myriad new media forms redefine our immersive habits and patterns of gratification. *States of Immersion Across Media* invites readers to slow down and reflect on immersive practices, both new and old, their impact on our bodies, the affective attunements they evoke, the disruptions they afford, and the creative encounters they generate.

Over Work Brigid Schulte, 2025-01-09 Fantastic Cal Newport. A bold vision lights the way to fewer hours, less stress, and more meaning. Adam Grant. Workers across all demographics, industries, and socioeconomic levels report exhaustion, burnout, and the wish for more meaningful lives. Drawing on years of research, Brigid Schulte traces the arc of our discontent from a time before the 1980s when work was more compatible with well-being, and many jobs enabled a single earner to support a family, until today with millions of people working multiple hourly jobs or in white-collar positions where no hours are ever off-duty. She casts a wide net in search of solutions, exploring the movement to institute a four-day workweek, introducing Japan's Housewives Brigade, which demands legal protection for family time, and embedding with CEOs who are making the business case for humane conditions. Rich with stories and informed by deep investigation, *Over Work* lays out a clear vision for ending our punishing grind and reclaiming leisure, joy, and meaning.
