this book finds it in the writers read is not an abstract concept It is an elusive feature of specific verbal constructs different in each case It can be glimpsed only through close readings that respect this diversity as the plural in the title Others indicates We perceive otherness in the way that the unseen and the characters emotional responses to it ripples the conservative ideological surface of Howard s End We sense it as chaos in Schlegel s radical concept of irony And we gaze at it in the multiple personifications of Heart of Darkness Each testifies in its own way to the richness and tangible weight of an otherness close at hand
