## **Doing Democracy The Map Model For Organizing Social Movements:**

Doing Democracy Bill Moyer, JoAnn MacAllister, Mary Lou Finley Steven Soifer, 2001-08-01 An empowering guide to understanding the strategies behind successful social movements      *Cases on Academic Program Redesign for Greater Racial and Social Justice* Cain-Sanschagrin, Ebony, Filback, Robert A., Crawford, Jenifer, 2021-11-19 Faculty and students confront persistent racial economic and social inequities in higher education locally nationally and globally To counter these inequities there has been a recent focus on universities providing an inclusive curriculum that serves the needs of students from a wide range of backgrounds Inclusive and equitable courses and instruction are crucial in today's world as calls for racial and social justice grow particularly in higher education Universities and instructors must take action and make changes to best serve their students *Cases on Academic Program Redesign for Greater Racial and Social Justice* provides an equity oriented practical guide for those in higher education who are engaged in the work of curricular reform or program development It also explores practices and approaches to curriculum development that consider program quality and equitable outcomes as mutually beneficial and necessary outcomes Covering a range of topics such as antiracism and mindful hiring it is ideal for teachers instructional designers curricula developers administrators academics professors educators researchers those working in higher education and students      *Activist Faith* Carol Ann Drogus, Hannah Stewart-Gambino, 2009-03-02 An extensive and powerful literature on religion society and politics in Latin America in recent years has begun with the assumption that most of the movements that surged in the struggle against military rule are dead that most of the activists are scattered and burned out and that the promise of civil society as a source of new values and a new kind of citizenship and political life was illusory Many have assumed that the religiously inspired activism of that period left little lasting impact but hardly anyone has actually looked at the activists themselves to see what remains how they cope in a different more open environment and how they see and act on the present and future *Activist Faith* addresses these issues with a wealth of empirical detail from two key cases and with a richly interdisciplinary argument that draws on theorizing about social movements The authors strive to understand what sustains activism and movements in radically different circumstances from those in which they arose Their analysis is enriched by systematic attention to the impact of gender and gender related issues on activism and movements In the process they shed much needed light on the fate of the activists and social movements that rose to prominence throughout Latin America during the 1980s This beautifully written book is a major achievement that gives us analytical tools for studying how movements and activists survive in the doldrums and when a cycle of protest peaks and societies move on Daniel H Levine University of Michigan      Community Organizing and Development Herbert J.
